ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: James Gerage
DOCKET NO.: 08-26350.001-R-1
PARCEL NO.: 06-16-105-012-0000

The parties of record before the Property Tax Appeal Board are James Gerage, the appellant, by attorney Joseph G. Kusper, of Storino Ramello & Durkin in Rosemont; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds ***a reduction*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$ 7,680
IMPR.:	$ 25,082
TOTAL:	$ 32,762

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property consists of a 48,003 square foot parcel improved with a seven-year-old, one-story, single-family dwelling of frame construction containing 2,166 square feet of living area and located in Hanover Township, Cook County. Features of the residence include two and one-half bathrooms, a full-finished basement, central air-conditioning, a fireplace and a three-car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted a two-page brief, photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables consist of one-story, single-family dwellings of frame construction located

within several blocks of the subject. The improvements contain 2,668 or 2,700 square feet of living area and range in age from seven to nine years old. The comparables contain two and one-half bathrooms, a finished or unfinished basement, central air-conditioning and a two-car or three-car attached garage. Three comparables have a fireplace. The improvement assessments range from $8.59 to $11.58 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of $47,620. The subject's improvement assessment is $39,940 or $18.44 per square foot of living area. In support of the assessment the board submitted a property characteristic printout and descriptive data on one property suggested as comparable to the subject. The suggested comparable is improved with a one and one-half story, 137-year-old, 2,413 square foot, single-family dwelling of frame construction with the same neighborhood code as the subject. The comparable contains one and one-half bathroom, a full-unfinished basement and central air-conditioning. The improvement assessment is $19.52 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Board finds the appellant's comparables to be the most similar properties to the subject in the record. These four properties are similar to the subject in design, amenities, exterior construction, age and location and have improvement assessments ranging from $8.59 to $11.58 per square foot of living area. The subject's per square foot improvement assessment of $18.44 falls above the range established by these properties. The Board further finds the board of review's one comparable less similar to the subject in age and/or amenities and accorded less weight. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's improvement assessment is inequitable and a reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
