FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Wendy Pick and Scott Pascal
DOCKET NO.: 09-29159.001-R-1
PARCEL NO.: 14-31-130-041-0000

The parties of record before the Property Tax Appeal Board are Wendy Pick and Scott Pascal, the appellants, by attorney Abby L. Strauss, of Schiller Klein PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds ***no change*** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$11,400
IMPR.:	$48,424
TOTAL:	$59,824

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2009 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property has a 2,400 square foot site improved with two buildings. Improvement #1 is a 119-year old one-story multi-family dwelling of masonry construction, containing 1,512

square feet of living area, and featuring a full basement with an apartment. Improvement #2 is a 119-year old 1.5-story building of masonry construction, containing 1,110 square feet, and featuring an unfinished basement. Appellants argued that there was unequal treatment in the assessment process of the total of improvements #1 and #2.

The property is located in West Chicago Township, Cook County. Under the Cook County Real Property Assessment Classification Ordinance, improvement #1 of the subject is classified as 2-11 property, which is an apartment building. Improvement #2 is classified as 2-03 property, which is a one-story residence.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on three suggested equity comparables.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of $59,824. Improvement #1 of the subject is assessed at $26,766 or $17.70 per square foot of living area; improvement #2 of the subject is assessed at $21,658 or $19.51 per square foot of living area. Total improved assessment for both improvements is $48,424.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables for each of improvements #1 and #2. The comparables for improvement #1 range from $18.12 to $24.83 per square foot. The comparables for improvement #2 range from $27.45 to $29.77 per square feet.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant *did not meet* this burden of proof and a reduction in the subject's assessment *is not* warranted.

The Board finds the best evidence of assessment equity for improvement #1 to be *board of review comparables #1 through #3*. These comparables had improvement assessments that ranged from $18.12 to $24.83 per square foot of living area. The subject's improvement assessment of $17.70 per square foot of living area falls below the range established by the best comparables in this record.

The Board finds the best evidence of assessment equity for improvement #2 to be *board of review comparables #1 through #4*. These comparables had improvement assessments that ranged from $27.45 to $29.77 per square foot of living area. The subject's improvement assessment of $19.51 per square foot of living area falls below the range established by the best comparables in this record.

Based on this record the Board finds the appellant *did not* demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment *is not* justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
