FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Greg Karlove
DOCKET NO.: 09-30592.001-R-1
PARCEL NO.: 04-24-310-038-0000

The parties of record before the Property Tax Appeal Board are Greg Karlove, the appellant, by attorney Julie Realmuto of McCarthy Duffy in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$18,050
IMPR.:	$75,834
TOTAL:	$93,884

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a one-story dwelling of masonry construction containing 2,275 square feet of living area. The dwelling is 50 years old. Features of the home include a partial unfinished basement, central air conditioning, two fireplaces and a 2-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as one-story or 1.5-story frame or frame and masonry dwellings that range in age from 50 to 69 years old. The comparable dwellings range in size from 2,448 to 2,758 square feet of living area. Each comparable has a fireplace. Three comparables have central air conditioning. Two comparables have partial finished basements. The appellant did not include any data concerning garages for the comparables, however, photographs depict a garage for one comparable. The comparables have improvement assessments ranging from $19.55 to $22.62 per square foot of living area. The subject's improvement assessment is $33.33 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of $93,884 was

disclosed. The board of review presented descriptions and assessment information on four comparable properties. The comparables consist of one-story masonry or frame and masonry dwellings that range from 45 to 56 years old. The dwellings range in size from 2,207 to 2,688 square feet of living area. Each comparable has one or two fireplaces and a 2-car or 2.5-car garage. Each comparable has a partial basement, one is finished with a recreation room. These properties have improvement assessments ranging from $33.34 to $38.55 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties submitted eight equity comparables for the Board's consideration. The Board gave less weight to appellant's comparable #2 due to the dissimilarity in design and age. The Board also gave less weight to board of review comparable #1 due to its finished basement, unlike the subject. The Board finds comparables #2, #3 and #4 submitted by the board of review were most similar to the subject in location, design, exterior construction features and size. These comparables had improvement assessments that ranged from $19.55 to $38.55 per square foot of living area. The subject's improvement assessment of $33.33 per square foot of living area falls within the range established by the most similar comparables. After considering adjustments and the differences to the most similar comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
