FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Wayne Novy
DOCKET NO.: 09-30616.001-R-1
PARCEL NO.: 24-14-312-008-0000

The parties of record before the Property Tax Appeal Board are Wayne Novy, the appellant, by attorney Julie Realmuto of McCarthy Duffy in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$5,320
IMPR.:	$14,017
TOTAL:	$19,337

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a 1.5-story dwelling of frame and masonry construction containing 1,248 square feet of living area[1]. The dwelling is 65 years old. Features of the home include a full unfinished basement and a 2-car garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on six comparable properties, however, the appellant provided detailed descriptive information on only four of these comparable properties. The Board will give less weight to the comparables that do not have descriptive information. The four remaining comparables are described as one-story or 1.5-story frame dwellings that range from 68 to 91 years old. The comparable dwellings range in size from 857 to 981 square feet of living area. One comparable has an unfinished basement. The appellant did not include any data concerning garages for the comparables. The comparables have improvement assessments ranging from $10.16 to $11.62 per square foot of living area. The subject's improvement assessment is $17.81 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

[1] The appellant described the subject as a one-story dwelling of masonry construction containing 787 square feet of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of $19,337 was disclosed. The board of review presented descriptions and assessment information on four comparable properties. The comparables consist of 1.5-story frame and masonry dwellings that range from 56 to 68 years old. The dwellings range in size from 1,309 to 1,476 square feet of living area. Each comparable has a full unfinished basement. Two comparables have a 2-car garage. One comparable has a fireplace. These properties have improvement assessments ranging from $13.16 to $15.66 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The parties submitted eight equity comparables for the Board's consideration. The Board gave less weight to appellant's comparables due to their dissimilarity in design and/or age when compared to the subject. Moreover, they are all smaller than the subject. The Board finds the comparables submitted by the board of review were most similar to the subject in location, design, size, age, exterior construction and features. These comparables had improvement assessments that ranged from $13.16 to $15.66 per square foot of living area. The subject's improvement assessment of $11.23 per square foot of living area is below the range established by the most similar comparables. After considering adjustments and the differences to the most similar comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
