FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD

APPELLANT: Lois Berry
DOCKET NO.: 09-32767.001-R-1
PARCEL NO.: 14-33-112-034-0000

The parties of record before the Property Tax Appeal Board are Lois Berry, the appellant, by attorney Mitchell L. Klein, of Schiller Klein, PC, in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	$11,115
IMPR.:	$66,912
TOTAL:	$78,027

Subject only to the State multiplier as applicable.

ANALYSIS

The subject property is improved with a two-story dwelling of masonry construction containing 1,680 square feet of living area. The dwelling was 120 years old. Features of the home include a full basement with recreation room finish and central air conditioning. The property has a 1,482 square foot site and is located in Chicago, North Chicago Township, Cook County.

The appellant's appeal is based on assessment equity. The appellant submitted information on three comparable properties described as two-story dwellings of masonry construction that ranged in size from 1,503 to 1,792 square feet of living area. The dwellings ranged in age from 116 to 121 years old. Each comparable has the same neighborhood code as the subject property. Features of the comparables include a full basement. Two of the comparables have a finished recreation room in the basement. One comparable has a fireplace; and one comparable has a two-car garage. The comparables have improvement assessments ranging from $55,122 to $58,637 or from $30.76 to

$36.90 per square foot of living area. The subject's improvement assessment is $66,912 or $39.83 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to $57,960 or $34.50 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties improved with two-story dwellings of masonry construction that range in size from 1,422 to 1,680 square feet of living area. The dwellings ranged in age from 120 to 131 years old. Each has the same neighborhood code as the subject property. Features of the comparables include a full basement and central air conditioning. Three of the comparables have a finished recreation room in the basement and three of the comparables have a fireplace. These properties have improvement assessments ranging from $59,793 to $67,085 or from $39.93 to $43.05 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessments by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989); 86 Ill.Admin.Code 1910.63(e). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the comparables submitted into the record are similar to the subject in location, size, style, exterior construction, features and age, with the most similar being board of review comparable number 1. This comparable is the same age and size as the subject property and has the same features such as basement, recreation room and central air conditioning. The comparable is also located on the subject's street in the same block as the subject property. The comparables had

improvement assessments that ranged from $30.76 to $43.05 per square foot of living area. The subject's improvement assessment of $39.83 per square foot of living area falls within the range established by the comparables in this record and is actually lower than the best comparable which has an assessment of $39.93 per square foot of living area. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement assessment was inequitable and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
