

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Tom Hatzis
DOCKET NO.: 09-21872.001-R-1
PARCEL NO.: 23-33-103-021-0000

The parties of record before the Property Tax Appeal Board are Tom Hatzis, the appellant, by attorney Brian P. Liston of the Law Offices of Liston & Tsantilis, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds **a reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND: \$ 5,500
IMPR.: \$15,205
TOTAL: \$20,705**

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2009 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a multi-level dwelling of frame and masonry construction. The dwelling has 1,399 square feet of living area and is approximately 25 years old. Features of the

home include a partial finished basement, central air conditioning and a two-car garage. The property has a 10,000 square foot site and is located in Palos Park, Palos Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted information on five comparable sales.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$28,667. The subject's assessment reflects a market value of \$322,101 or \$230.24 per square foot of living area, including land, when applying the 2009 three year average median level of assessment for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 8.9% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment, the board of review submitted information on four comparable properties, none of which were sales.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the only evidence of market value was submitted by the appellant. Of this submission, the Board finds the best evidence of market value was the appellant's comparable sale #1. This comparable was a multi-level dwelling like the subject and was located in the same tax block as the subject. Additionally, this comparable was also very similar to the subject in exterior construction, age, living area, land area and most features. This comparable sold in January 2010 for a price of \$180,000 or for \$126.05 per square foot of living area, including land. The subject's assessment reflects a market value of \$230.24 per

square foot of living area, including land, which is above that established by the best comparable sale in this record.

Based on this evidence, the Board finds a reduction commensurate with the appellant's request is appropriate.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
