

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Adam Pilecki
DOCKET NO.: 09-34480.001-C-1
PARCEL NO.: 04-32-302-019-1001

The parties of record before the Property Tax Appeal Board are Adam Pilecki, the appellant(s), by attorney Michael E. Crane, of Crane and Norcross in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 5,609
IMPR.: \$ 64,014
TOTAL: \$ 69,623

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2009 tax year. The Property Tax Appeal Board (the "Board") finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject consists of a condominium unit with a 6.25% ownership interest in the common elements, located in a 16-unit building of masonry construction. The dwelling is 18 years old.

The property has a 138,077 square foot site and is located in Northfield Township, Cook County. The subject is classified as a class 2-99 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on eight equity comparables. The appellant failed to include the comparables' square footage of living area and percentage of ownership in the common elements.

The appellant also contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted an income and expense analysis estimating the subject property had a market value of \$339,940.

The board of review submitted its "Board of Review-Notes on Appeal" disclosing the total assessment for the subject of \$69,623. The subject's assessment reflects a market value of \$782,281 when applying the 2009 three year median level of assessment under the Cook County Real Property Assessment Classification Ordinance of 8.9% as determined by the Illinois Department of Revenue. In support of its contention of the correct assessment, the board of review submitted a memorandum indicating there was one sale that occurred in the subject building during 2008. Based on this memorandum, the board of review concluded the market value of the subject property indicated by the sales analysis of \$686,000 was fair and uniform.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds that although the comparables presented by the appellant are similar in location, age and construction, the

appellant failed to submit several key elements to comparability: the percentage of ownership allocated to each unit as well as the square footage of each comparable unit. Without these elements, the Board is unable to determine comparability to the subject property. Therefore, the Board finds no reduction is warranted as to this issue raised by the appellant.

The appellant also contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant has not met this burden of proof and a reduction in the subject's assessment is not warranted.

The appellant submitted documentation showing the income of the subject property. The Board gives the appellant's argument little weight. In Springfield Marine Bank v. Prop. Tax Appeal Bd., 44 Ill.2d 428 (1970), the Illinois Supreme Court stated:

[I]t is clearly the value of the "tract or lot of real property" which is assessed, rather than the value of the interest presently held. . . [R]ental income may of course be a relevant factor. However, it cannot be the controlling factor, particularly where it is admittedly misleading as to the fair cash value of the property involved. . . [E]arning capacity is properly regarded as the most significant element in arriving at "fair cash value". Many factors may prevent a property owner from realizing an income from property that accurately reflects its true earning capacity; but it is the capacity for earning income, rather than the income actually derived, which reflects "fair cash value" for taxation purposes.

Id. at 431.

As the Court stated, actual income and expenses can be useful when shown that they are reflective of the market. Although the appellant made this argument, the appellant did not demonstrate, through an expert in real estate valuation, that the subject's actual income and expenses are reflective of the market. To demonstrate or estimate the subject's market value using income

and expenses one must establish, through the use of market data, the market rent, vacancy and collection losses, and expenses to arrive at a net operating income reflective of the market and the property's capacity for earning income. The appellant did not provide such evidence and, therefore, the Board gives this argument no weight. Thus, the Board finds that a reduction is not warranted based on the appellant's income analysis.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
