

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Chaim Kohanchi
DOCKET NO.: 10-27003.001-R-1
PARCEL NO.: 13-14-307-040-1028

The parties of record before the Property Tax Appeal Board are Chaim Kohanchi, the appellant, by attorney Brian S. Maher of Weis, DuBrock, Doody & Maher in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$967
IMPR.: \$11,133
TOTAL: \$12,100

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2009 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a residential condominium unit located at 3611 W. Montrose, Unit #502, Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-99 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant's appeal is based on overvaluation. In support of this argument, the appellant submitted evidence disclosing the subject property was purchased on February 26, 2010, for a price

of \$121,000. Based on this evidence, the appellant requested a reduction in the subject's assessment to reflect the purchase price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$32,401. The subject's assessment reflects a market value of \$362,427 using the 2010 three year average median level of assessments for class 2 property of 8.94% under the Cook County Real Property Assessment Ordinance as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment, the board of review submitted an explanation outlining the method of assessing the subject condominium unit. The evidence indicates the condominium building's estimated market value was derived from eight selected sales of condominium units that occurred in 2007 and 2008 for sale prices that totaled \$1,796,297. No adjustments were applied to these sales, and descriptions of these properties were not provided by the board of review. The personal property of these eight sales was estimated to be 2% or \$35,926. The total amount less personal property (\$1,760,371) was divided by the total ownership percentage in the condominium (11.75%) to arrive at the condominium building's estimated market value of \$14,981,881. The subject's market value was based on its pro rata share of ownership (3.23%) or \$483,914. In addition, Nicholas Jordan, a board of review analyst, submitted a brief challenging the arm's length nature of the subject's sale. The board of review analyst submitted evidence that indicated the February 2010 sale of the subject property was compulsory in lieu of foreclosure. This evidence consisted of print-outs from the Cook County Recorder of Deeds' website. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value to be the purchase of the subject property on February 26, 2010, for a price of \$121,000. The appellant provided evidence demonstrating the sale had some of the elements of an arm's length transaction. The appellant completed Section IV - Recent Sale Data of the appeal disclosing the parties to the transaction were not related. In further support of the transaction, the appellant submitted a copy of the settlement statement (HUD-1). The settlement statement revealed that a commission had been paid to a realty firm. The Board finds the purchase price is below the market value reflected by the assessment.

The Board finds the board of review presented evidence disclosing the subject sold out of foreclosure but was not able to refute the contention that the purchase price was reflective of market value. The board of review relied on the sale prices of eight condominium units to arrive at the subject's assessed value based on its pro rata share of ownership. No adjustments were applied to these sales, and descriptions of these properties were not provided by the board of review. Furthermore, the sales used to derive the subject's value were somewhat dated from the January 1, 2010 assessment date. The Board finds the subject's sale price is the better indicator of the subject's market value than the valuation methodology employed by the board of review.

Based on this record, the Board finds a reduction in the subject's assessment commensurate with the appellant's request is appropriate.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
