

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Scott Allen  
DOCKET NO.: 16-20071.001-R-1  
PARCEL NO.: 11-07-112-017-0000

The parties of record before the Property Tax Appeal Board are Scott Allen, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$8,176  
**IMPR.:** \$51,500  
**TOTAL:** \$59,676

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of stucco exterior construction with 2,000 square feet of living area. The dwelling is 93 years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace, and a one-car garage. The property has a 5,840 square foot site and is located in Evanston, Evanston Township, Cook County. The subject is classified as a class 2-05 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument, the appellant submitted information on three equity comparables located within the same neighborhood code as the subject. The comparables were improved with two-story dwellings of frame exterior construction containing from 1,856 to 2,194 square feet of living area. The dwellings range in

age from 113 to 120 years old and have full unfinished basements. One comparable has central air conditioning and one comparable has a fireplace. Each comparable has either a one-car or two-car garage. The comparables had improvement assessments that ranged from \$41,231 to \$51,334 or from \$22.21 to \$23.40 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$45,440 or \$22.72 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$59,676. The subject property has an improvement assessment of \$51,500 or \$25.75 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables which have the same neighborhood code and are located within .25 miles of the subject. The comparables were improved with two-story dwellings of stucco exterior construction containing from 1,834 to 2,046 square feet of living area. The dwellings range in age from 98 to 113 years old and have full unfinished basements. Two comparables have central air conditioning. Each comparable has a fireplace. Three comparables have either a one-car or a two-car garage. The comparables have improvement assessments that range from \$48,124 to \$56,180 or from \$25.86 to \$28.03 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the board of review's comparables #2 and #3. These comparables are most similar to the subject in location, age, and dwelling size. The Board gave greater weight to these comparables because they are also identical to the subject in design, exterior construction, foundation, central air conditioning and other features. The comparables had improvement assessments of \$52,901 and \$48,124 or \$25.86 and \$26.24 per square foot of living area. The subject's improvement assessment of \$51,500 or \$25.75 per square foot of living area is supported by the two best comparables contained in this record. The Board gave less weight to both parties' remaining comparables due to their older ages, lack of central air conditioning, and/or lack of a garage when compared to the subject. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
