

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Patricia Dreibelbis
DOCKET NO.: 16-20202.001-R-1
PARCEL NO.: 10-11-307-028-0000

The parties of record before the Property Tax Appeal Board are Patricia Dreibelbis, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,815
IMPR.: \$35,276
TOTAL: \$40,091

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a 1.5-story dwelling of frame exterior construction with 1,755 square feet of living area. The dwelling is 64 years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a one-car attached garage. The property has a 5,350 square foot site and is located in Evanston, Evanston Township, Cook County. The subject is classified as a class 2-03 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument, the appellant submitted information on three equity comparables located within the same neighborhood code as the subject. The comparables were improved with similar style dwellings of masonry exterior construction containing from 1,486 to 1,655 square feet of living area. The dwellings range in

age from 60 to 93 years old and have partial or full basements with unfinished areas. Other features have varying degrees of similarity to the subject property. The comparables had improvement assessments that ranged from \$16.41 to \$18.17 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$30,046 or \$17.12 per square foot of living area.

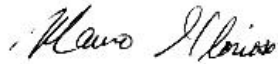

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$40,091. The subject property has an improvement assessment of \$35,276 or \$20.10 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on three equity comparables located within the same neighborhood code and .25 of a mile from the subject property. The comparables were improved with similar style dwellings of masonry, stucco, or frame and masonry construction containing from 1,529 to 1,747 square feet of living area. The dwellings are 63 or 66 years old, and one comparable has a full basement with finished area. Other features have varying degrees of similarity to the subject property. The comparables had improvement assessments that ranged from \$20.29 to \$20.78 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the appellant's comparable #1 and board of review comparable #3. These comparables are most similar to the subject in design, age, dwelling size, foundation, and most features. These comparables had improvement assessments of either \$16.41 or \$20.29 per square foot of living area. The subject's improvement assessment of \$20.10 per square foot of living area is supported by the two best comparables contained in this record after making adjustments for differences when compared to the subject. The Board gave less weight to the parties remaining comparables due to differences in age and/or lack of basement areas when compared to the subject. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
