

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Peter T. Katrakis
DOCKET NO.: 19-41851.001-R-1
PARCEL NO.: 13-12-409-022-0000

The parties of record before the Property Tax Appeal Board are Peter T. Katrakis, the appellant, by attorney Ellen G. Berkshire, of Verros Berkshire in Oakbrook Terrace; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$9,000
IMPR.: \$44,185
TOTAL: \$53,185

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story, multi-family building of masonry exterior construction with 2,793 square feet of building area. The building is approximately 102 years and has a full unfinished basement and a 1-car detached garage. The property has a 3,750 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal. In support of the inequity argument, the appellant provided information on four comparables located within the same neighborhood code as the subject property and from .2 of a mile to 1.2 miles from the subject. The comparables are improved with class 2-11 buildings of frame and masonry exterior construction ranging in size from 2,750 to 2,932 square feet of

building area. The dwellings range in age from approximately 96 to 108 years old and have unfinished basements. Three comparables have either a one-car or a two-car garage. The comparables have improvement assessments ranging from \$29,049 to \$36,119 or from \$10.56 to \$12.70 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$32,734 or \$11.72 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$53,185. The subject property has an improvement assessment of \$44,185 or \$15.82 per square foot of building area. In support of its contention of the correct assessment the board of review submitted information on four comparables located within the same neighborhood code as the subject. The comparables are also located within the same block or .25 of a mile from the subject property. The comparables are improved with class 2-11 multi-family buildings of masonry exterior construction ranging in size from 2,450 to 2,666 square feet of building area. The dwellings range in age from 95 to 100 years old. Each comparable has an unfinished basement and either a one-car or a two-car garage. The comparables have improvement assessments ranging from \$42,865 to \$53,957 or from \$16.64 to \$21.77 per square foot of building area. Based on this evidence, the board of review requested that the subject's assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparable #2 and the board of review comparable #4 due to differences in location, dwelling size and/or lack of a garage when compared to the subject.

The Board finds the best evidence of assessment equity to be the parties' remaining comparables which are relatively similar to the subject in location, dwelling size, age, foundation, and most features. These six comparables have improvement assessments ranging from \$29,049 to \$53,957 or from \$10.56 to \$20.24 per square foot of building area. The subject's improvement assessment of \$44,185 or \$15.82 per square foot of building area falls within the range established by the best comparables in this record. Based on this record and after considering adjustments to the comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
