

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Vesna Lazic  
DOCKET NO.: 19-42039.001-R-1  
PARCEL NO.: 13-13-211-023-0000

The parties of record before the Property Tax Appeal Board are Vesna Lazic, the appellant, by attorney Ellen G. Berkshire, of Verros Berkshire in Oakbrook Terrace; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$8,640  
**IMPR.:** \$45,776  
**TOTAL:** \$54,416

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2019 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story, multi-family building of masonry exterior construction with 2,274 square feet of building area. The building is approximately 108 years old, has an unfinished basement, and a 2-car garage. The property has a 3,600 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity with respect to the subject's improvement as the basis of the appeal. In support of this argument, the appellant submitted information on four comparables located within the same neighborhood code as the subject and from .6 of a mile to 1.3 miles of the subject. The comparables are improved with class 2-11 multi-family buildings of masonry exterior construction ranging in size from 1,938 to 2,624 square feet of building area. The buildings range in age from 95 to 101 years old, have unfinished basements, and either a

1.5-car, a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$26,112 to \$38,648 or from \$12.89 to \$14.96 per square foot of building area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$32,245 or \$14.18 per square foot of building area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$54,416. The subject property has an improvement assessment of \$45,776 or \$20.13 per square foot of building area.

In support of its contention of the correct assessment, the board of review submitted information on four comparables located within the same neighborhood code and the same block as the subject. The comparables are improved with class 2-11, two-story, multi-family buildings of masonry exterior construction ranging in size from 2,250 to 2,400 square feet of building area. The buildings range in age from 102 to 108 years old, have unfinished basements, and either a 1car or a 2-car garage. The comparables have improvement assessments ranging from \$49,012 to \$54,749 or from \$20.68 to \$23.76 per square foot of building area. Based on this evidence, the board of review requested the subject's assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight equity comparables for the Board's consideration. The Board gives less weight to the appellant's comparables which are located a mile or more away from the subject and/or are also less similar to the subject in building size than the board of review comparables.

The Board finds the best evidence of assessment equity to the board of review comparables which are located within the same block as the subject and are also similar to the subject in age, building size, foundation, and other features. These four comparables have improvement assessments ranging from \$49,012 to \$54,749 or from \$20.68 to \$23.76 per square foot of building area. The subject's improvement assessment of \$45,776 or \$20.13 per square foot of building area falls below the range established by the best comparables in this record. After considering adjustments to the best comparables for differences when compared to the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
