Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Knox County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2020 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Preliminary Matter & Issues Raised

The parcel in this appeal was also the subject matter of appeals before the Property Tax Appeal Board for the prior tax years 2012, 2013, 2014, 2015, 2016, 2017, 2018 and 2019. In those appeals, except for tax years 2018 and 2019 which are being issued simultaneously with this decision, the Property Tax Appeal Board reached decisions based upon equity and the weight of the evidence in the record as presented by the parties to the appeal. Decisions for tax years 2012, 2013 and 2014 were issued on August 19, 2016 by the Property Tax Appeal Board after a hearing and consideration of the record evidence that resulted in no change to the assessments issued by the Knox County Board of Review. Neither party pursued administrative remedies to challenge the decisions of the Property Tax Appeal Board for tax years 2012, 2013 or 2014.

Decisions for tax years 2015, 2016 and 2017 were issued on August 13, 2019 by the Property Tax Appeal Board based on the evidence of record and resulted in no change to the assessments issued by the Knox County Board of Review. The appellant pursued administrative review initially to the circuit court in Case No. 19-MR-142 as to Docket No. 16-02729 concerning the instant parcel. The court affirmed the decision of the Property Tax Appeal Board. Subsequently, the appellant pursued an appeal to the Fourth District Appellate Court in Case No. 4-22-0638 which on December 22, 2022 was dismissed on the appellant's Motion to Dismiss.

The Property Tax Appeal Board finds from its analysis of the very limited data and arguments made that this 2020 appeal on the parcel is substantially no different from that of the prior years of 2012, 2013, 2014, 2015, 2016, 2017, 2018 and 2019. In fact, the submission includes an identical brief for this parcel as has been filed in prior appeals. Since no new substantive evidence was presented to warrant a change from the previous years' decisions and since the Property Tax Appeal Board finds that the legal and factual bases upon which those decisions were issued has not changed, a like decision will be reiterated in this matter. (See also 86 Ill.Admin.Code §1910.90(i) authorizing the Property Tax Appeal Board to take judicial notice of decisions it has rendered).

Findings of Fact

As background, the appellant owns multiple parcels identified by three separate PINs comprising a total of approximately 313.99-acres. There are two parcels that are the subject matters for tax year 2017 for this consolidated decision. Subject parcel -003 consists of 80-acres of land. Portions of the subject parcel qualifies as farmland but also consists of areas that are operated as Laurel Greens, a rural golf course which is located in Knoxville, Knox Township, Knox County.¹

The appellant built the first nine holes in 1969/1970 and opened the course to the public in 1971. On November 26, 1984 the appellant applied for an open space valuation in accordance with the Property Tax Code.² An additional nine-holes were opened by the appellant in 1990 and a third nine-holes were built in 1996 with a fourth set of nine-holes added in 2000. The parcels in dispute, PIN -003, has been assessed in part under the preferential farmland classification and in part as open space due to use of portions of the parcel as a golf course.

The appellant Clyde A. Raible has appeared before the Property Tax Appeal Board on behalf of himself and his wife in prior year appeals and based his appeal on a claim of improper classification. The sole issue in the 2018 appeal is the proper assessment of land as delineated farmland and open space for this parcel in an identical manner to the prior tax year appeals before the Property Tax Appeal Board. As to the disputed land assessment, the appellant

¹ As depicted in the respective annual farmland assessments of the subject parcel, while the land area or acreage that has been classified by the assessing officials as farmland has not changed for tax year 2018, the actual farmland assessment changes annually based upon State soil productivity index figures.

² As a consequence of the open space application and subsequent appeals, the subject golf course was the subject matter of an appellate court opinion in Knox County Board of Review v. Property Tax Appeal Board, 185 Ill.App.3d 530 (3rd Dist. 1989).

contends the subject parcel is entitled to additional acreage with a farmland classification (total claim of 73.8-acres) with accompanying reductions in acreage classified and assessed as open space (for a total claim of 6.2-acres) (see appellant's marked aerial photograph exhibit dated February 17, 2011).³ The appellant seeks to have the farmland and open space areas computed by the assessing officials as delineated in the aerial photograph with applicable delineations of cropland, other farmland and/or wasteland, as applicable.

Based upon the foregoing evidence and arguments for tax year 2018 and now for the 2019 appeal, the appellant contends the subject parcel consists of 10-acres that qualify as non-ag land to be assessed as open space and the remainder, or 70-acres, that qualify as farmland.

The board of review submitted its "Board of Review Notes on Appeal" wherein the assessment classifications of the subject parcel was disclosed along with additional documentation presumably submitted before the board of review by the appellant. In response, the board of review also submitted a letter prepared by board member Andrew Bowman outlining the argument of the board of review as to the parcel.

Parcel -003, based on the Board of Review Notes on Appeal, has a farmland assessment of \$7,180 and a land assessment of \$3,190 (open space valuation). Historically, although not shown by the board of review in its submission for 2020, the subject parcel has 61.21-acres (19.59-acres of cropland and 41.62-acres of other farmland) and 18.79-acres assessed as open space.

Based on the foregoing evidence and argument as to parcel -003, the board of review requested confirmation of the classification and assessment of the parcel based upon the equitable and uniform treatment of the golf courses in Knox County.

Conclusion of Law

The sole basis of this appeal by the appellant is a contention of law concerning the classification for assessment purposes of portions of parcel -003. The Property Tax Appeal Board finds the issue in this appeal, like it was in prior years before the Board, is the proper classification of the parcel with regard to the categories of open space and farm. The appellant seeks to reduce the land area classified and assessed as open space and correspondingly increase the area classified and assessed as farmland (cropland, other farmland and/or wasteland).

Section 10-15 of the Illinois Administrative Procedure Act (5-ILCS 100/10-15) provides:

³ As part of the appeal and in support of the appellant's classification argument, the appellant included a detailed aerial photograph dated February 17, 2011 and produced by the U.S.D.A. Farm Service Agency of the disputed parcel(s) upon which the appellant sketched out in red pen the various classifications and/or desired classifications of "golf course" (G.C.), "water" and "F" farmland areas for the parcel(s).

Standard of proof. Unless otherwise provided by law or stated in the agency's rules, the standard of proof in any contested case hearing conducted under this Act by an agency shall be the preponderance of the evidence.

The rules of the Property Tax Appeal Board are silent with respect to the burden of proof associated with an argument founded on a contention of law. See 86 Ill.Admin.Code §1910.63. Therefore, the Board will determine the appeal based upon a preponderance of the evidence of record. The Board finds that the appellant failed to sustain his claims and no change in the assessment of the subject parcel is warranted.

The Property Tax Appeal Board finds from its analysis of the record that the evidence in this appeal is no different from that of the prior multiple years of appeals pursued before the Board, some of which were affirmed at the circuit court level. Since no new evidence was presented to warrant a change from the previous year's decision(s), the Board finds that the assessment as established in the prior year's appeal(s) is appropriate.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
