

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Vincent Alomia
DOCKET NO.: 01-22012.001-R-1
PARCEL NO.: 13-03-209-028-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Vincent Alomia, the appellant, by attorney Patrick J. Cullerton of Fagel & Haber, of Chicago and the Cook County Board of Review (board).

The subject property consists of a 50-year-old, one-story single-family dwelling of masonry construction containing 1,023 square feet of living area and located in Jefferson Township, Cook County. The residence contains one bathroom, a full basement and a one-car garage.

The appellant, through counsel, submitted evidence before the PTAB claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered nine suggested comparable properties located within a quarter mile of the subject. These properties consist of one-story single-family dwellings of masonry or frame construction and range in age from 40 to 59 years. The comparables have one bathroom with some half-baths and four have basements. Five homes are air-conditioned and one has a fireplace. There is no evidence of garages. The comparables contain between 1,090 and 1,276 square feet of living area and have improvement assessments ranging from \$10,998 to \$13,375 or from \$9.31 to \$10.63 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$14,228, or \$13.91 per square foot of living area, was disclosed. In support of the subject's assessment, the board offered four suggested comparable properties located within a quarter mile of the subject. The comparables consist of one-story single-family dwellings of masonry construction and range in age from 42 to 50 years. The comparables contain one bathroom, one with a half-bath, full basements, one has air conditioning and all have one or two-car garages. The comparables range in size from 1,000 to 1,091 square feet of living area and have improvement assessments of

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the COOK County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 6,441
IMPR. \$14,228
TOTAL: \$20,669

Subject only to the State multiplier as applicable.

PTAB/TMcG. 9/08

between \$12,583 and \$16,126 or from \$11.54 to \$14.98 per square foot of living area. Based on this evidence, the board requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the PTAB finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the PTAB finds the appellant has failed to overcome this burden.

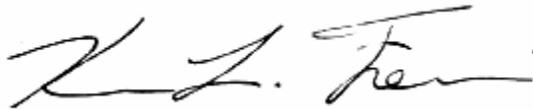

The PTAB finds the board's four comparables and the appellant's comparables one through four are the comparables quite similar to the subject. These properties have improvement assessments ranging from \$10.63 to \$14.98 per square foot of living area. The subject's per square foot improvement assessment of \$13.91 is within this range of properties. The PTAB gives less weight to the appellant's remaining comparables because they are less similar to the subject in building materials. After considering suggested comparables when compared to the subject property, the PTAB finds the evidence is insufficient to effect a change in the subject's current assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
