PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Robert Tracy
DOCKET NO.: 02-27770.001-R-1
PARCEL NO.: 24-10-223-022

The parties of record before the Property Tax Appeal Board (hereinafter PTAB) are Robert Tracy, the appellant, by Attorney Rusty A. Payton in Chicago; and the Cook County Board of Review.

The subject property consists of a 7,315 square foot parcel of land containing a 35-year old, one-story, masonry, single-family dwelling. This improvement contains 2,068 square feet of living area, a partial basement, air conditioning, one fireplace, and a two-car garage. The appellant argued via counsel that there was unequal treatment in the assessment process of the improvement as the basis of this appeal.

In support of the equity argument, the appellant submitted assessment data and descriptions of four properties suggested as comparable to the subject. Black and white photographs of the subject and these properties were submitted as well as an area map depicting the properties' proximity to the subject. The data in its entirety reflects that the properties are located within the subject's neighborhood and are improved with a one-story, masonry single-family dwelling. The improvements range in age from 49 to 54 years and in size from 2,114 to 2,409 square feet of living area. The improvement assessments range from \$4.47 to \$5.45 per square foot of living area. Based upon this analysis, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's improvement assessment was \$14,942, or \$7.23 per square foot. The board also submitted copies of the property characteristic printouts for the subject as well as three suggested comparables. The board's properties each contain

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the **COOK** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	4,927
IMPR.:	\$	14,942
TOTAL:	\$	19,869

a one-story, masonry, single-family dwelling. They range in age from 17 to 40 years and in size from 1,856 to 2,000 square feet of living area. Amenities include a basement, one fireplace, and two-car garage. The improvement assessments range from \$7.55 to \$7.65 per square foot of living area. In addition, the board submitted copies of its file from the board of review's level appeal. As a result of its analysis, the board requested confirmation of the subject's assessment.

After considering the evidence and reviewing the record, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

Appellants who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill. 2d 1, 544 N.E.2d 762 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. Proof of assessment inequity should include assessment data and documentation establishing the physical, locational, and jurisdictional similarities of the suggested comparables to the subject property. *Property Tax Appeal Board Rule 1910.65(b)*. Mathematical equality in the assessment process is not required. A practical uniformity, rather than an absolute one is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395, 169 N.E.2d 769 (1960). Having considered the evidence presented, the PTAB concludes that the appellant has not met this burden and that a reduction is not warranted.

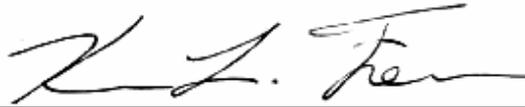

Both parties presented assessment data on a total of seven equity comparables. The PTAB finds that the appellant's comparables #1 and #4 as well as the board of review's comparable #3 are most similar to the subject. Each contains a one-story, masonry, single-family dwelling. They range: in age from 17 to 52 years; in size from 2,000 to 2,162 square feet of living area; and in improvement assessments from \$4.47 to \$7.65 per square foot of living area. In comparison, the subject's improvement assessment of \$7.23 per square foot of living area falls within the range established by these comparables. The PTAB accorded less weight to the remaining properties due to a disparity in improvement size and/or exterior construction.

As a result of this analysis, the PTAB further finds that the appellant has failed to adequately demonstrate that the subject's dwelling was inequitably assessed by clear and convincing evidence and that a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
