

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Theresa B. Sullivan  
DOCKET NO.: 03-20030.001-R-1  
PARCEL NO.: 16-06-211-005-0000

The parties of record before the Property Tax Appeal Board are Theresa B. Sullivan, the appellant, by attorney Joseph G. Kuser of Storino, Ramello & Durkin in Rosemont, and the Cook County Board of Review.

The subject property consists of a 67-year-old, two-story, single-family dwelling of masonry construction containing 1,950 square feet of living area and located in Oak Park Township, Cook County. Features of the home include one and one-half bathrooms, a full-unfinished basement, air-conditioning, a fireplace and a two-car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellant also submitted a two-page brief, photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the three suggested comparables offered by the appellant consist of two-story, 76 or 77-year-old, single-family dwellings of masonry construction located within two blocks of the subject. The improvements range in size from 2,417 to 2,808 square feet of living area. The comparables contain from one and one-half to three and one-half bathrooms and a full-unfinished basement. Two comparables contain a fireplace and a two-car detached garage. The improvement assessments range from \$9.59 to \$11.69 per square foot of living area. Based on the

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 8,747  
IMPR.: \$ 33,252  
TOTAL: \$ 41,999

Subject only to the State multiplier as applicable.

evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$41,999. The subject's improvement assessment is \$33,252 or \$17.05 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of masonry construction located within three blocks of the subject. Two comparables are located on the same street as the subject. The improvements range in size from 1,980 to 2,050 square feet of living area and range in age from 72 to 75 years. The comparables contain two or two and one-half bathrooms, one or two fireplaces and a two-car detached garage. Three comparables contain a finished or unfinished basement. The improvement assessments range from \$17.60 to \$18.18 per square foot of living area. In addition, the board submitted copies of documentation from the board of review level complaint file. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the board of review's comparables to be the most similar properties to the subject in the record. These four properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$17.60 to \$18.18 per square foot of living area. The subject's per square foot improvement assessment of \$17.05 falls below the range established by these properties. The Board finds the appellant's comparables less similar to the subject in improvement size and/or location. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record.

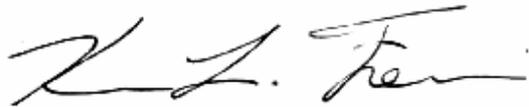

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the

subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
