

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Gail Todd  
DOCKET NO.: 03-20066.001-R-1  
PARCEL NO.: 05-29-100-093

The parties of record before the Property Tax Appeal Board (hereinafter PTAB) are Gail Todd, the appellant, by attorney Michael D. Gertner in Chicago and the Cook County Board of Review.

The subject property consists of a 20,878 square foot parcel of land containing a 52-year old, three-story, frame and masonry, single-family residence. This improvement contains 5,761 square feet of living area, six baths, a partial, unfinished basement, air conditioning, and two fireplaces. The appellant, via counsel, argued that there was unequal treatment in the assessment process of the improvement as the basis of this appeal.

In support of the equity argument, the appellant submitted assessment data and descriptions of three properties suggested as comparable to the subject. A brief from the appellant's attorney was also included. The data of the suggested comparables reflects that the properties are located within a few blocks the subject and are improved with a two or more story single-family dwelling. The improvements range in size from 5,661 to 6,023 square feet of living area and in improvement assessments from \$11.82 to \$14.32 per square foot of living area. The properties contain air conditioning. No information was provided as to exterior construction, age or basement. Based upon this analysis, the

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 38,415  
IMPR.: \$ 116,796  
TOTAL: \$ 155,211

Subject only to the State multiplier as applicable.

appellant requested a reduction in the subject's improvement assessment.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's improvement assessment was \$116,796, or \$20.27 per square foot of living area. The board also submitted copies of the property characteristic printouts for the subject as well as four suggested comparables with all the properties located within two blocks of the subject. The board's properties contain a two-story, masonry, single-family dwelling with between two and one-half and four and two-half baths. The improvements range: in age from 48 to 64 years; in size from 4,501 to 6,225 square feet of living area; and in improvement assessments from \$20.19 to \$21.50 per square foot of living area. Three properties contain a partial or full basement with two finished, air conditioning, and, for all properties, three or four fireplaces. In addition, the board submitted copies of its file from the board of review's level appeal. As a result of its analysis, the board requested confirmation of the subject's assessment.

After considering the evidence and reviewing the record, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

Appellants who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill. 2d 1, 544 N.E.2d 762 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. Proof of assessment inequity should include assessment data and documentation establishing the physical, locational, and jurisdictional similarities of the suggested comparables to the subject property. *Property Tax Appeal Board Rule 1910.65(b)*. Mathematical equality in the assessment process is not required. A practical uniformity, rather than an absolute one is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395, 169 N.E.2d 769 (1960). Having considered the evidence presented, the PTAB concludes that the appellant has not met this burden and that a reduction is not warranted.

Both parties presented assessment data on a total of seven equity comparables. The PTAB finds the board of review's comparables are the most similar to the subject. These four comparables contain a two-story, masonry, single-family dwelling located within two blocks of the subject. The improvements range: in age from 48 to 64 years; in size from 4,501 to 6,225 square feet of living area; and in improvement assessments from \$20.19 to \$21.50 per square foot of living area. In comparison, the subject's

Docket No. 03-20066.001-R-1

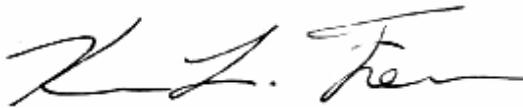

improvement assessment of \$20.27 per square foot of living area falls within the range established by these comparables. The PTAB accorded less weight to the remaining properties due to a lack of descriptive detail.

As a result of this analysis, the PTAB further finds that the appellant has not adequately demonstrated that the subject's improvement was inequitably assessed by clear and convincing evidence and that a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
