

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Ven Adana
DOCKET NO.: 03-21106.001-R-1
PARCEL NO.: 01-26-404-006-0000

The parties of record before the Property Tax Appeal Board are Ven Adana, the appellant, by attorney Rusty Payton of the Law Offices of Rusty Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property is improved with an 8-year old, two-story dwelling of masonry construction containing 7,998 square feet of living area with a full basement finished with a recreation room, central air conditioning, two fireplaces and a four-car attached garage.

The appellant's appeal is based on unequal treatment in the assessment process. In support of this argument the appellant submitted information on four comparable properties described as two-story masonry or frame and masonry dwellings that range in age from 7 to 13 years old for consideration. The comparables ranged in size from 6,162 to 8,502 square feet of living area. Each comparable has a basement, central air conditioning and a fireplace. One of the appellant's comparables is located along the same street as the subject while the three remaining comparables, based on a map submitted by the appellant, are located approximately 2.5 miles from the subject. These properties have improvement assessments ranging from \$6.84 to \$8.36 per square foot of living area. The subject's improvement assessment is \$12.37 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story masonry dwellings that range in age from 12 to 17 years old. The dwellings range in size from 4,540 to 6,808 square feet of living area. Each comparable has a full or partial basement, central

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

IMPR.:	\$	98,911
TOTAL:	\$	122,113

air conditioning, two or three fireplaces and attached garages ranging in size from 3 to 4-cars. These comparables are located along the same street as the subject property. These properties have improvement assessments ranging from \$12.39 to \$13.23 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

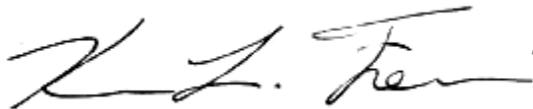

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds comparable number two submitted by the appellant and the comparables submitted by the board of review were most similar to the subject in location and features. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$7.32 to \$13.23 per square foot of living area. The two comparables most similar to the subject in size were the appellant's comparable number 2 and comparable number 2 submitted by the board of review. These two comparables had improvement assessments of \$7.32 and \$12.39 per square foot of living area. The subject's improvement assessment of \$12.37 per square foot of living area is within this range. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
