

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Jagvir Singh  
DOCKET NO.: 03-21121.001-R-1  
PARCEL NO.: 01-18-102-012-0000

The parties of record before the Property Tax Appeal Board are Jagvir Singh, the appellant, by attorney Rusty Payton of the Law Offices of Rusty Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property is improved with a 15-year old, two-story style dwelling of masonry construction containing 5,796 square feet of living area with a full unfinished basement, central air conditioning, three fireplaces and a three-car attached garage.

The appellant's appeal is based on unequal treatment in the assessment process. The appellant submitted information on four comparable properties described as two-story masonry dwellings that are from 6 and 31 years old for consideration. The comparables contain from 6,041 to 7,000 square feet of living area. Each comparable has a basement with one being fully finished. Each comparable is also described as having central air conditioning and a fireplace. A map submitted by the appellant indicates the comparables 1 and 4 are located approximately 2.25 miles from the subject. The comparable properties have improvement assessments ranging from \$9.47 to \$11.62 per square foot of living area. The subject's improvement assessment is \$16.50 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. The board of review presented descriptions and assessment information on four comparable properties consisting of two-story masonry dwellings that are 4 years old. The dwellings have the same classification and neighborhood codes as the subject property but are located approximately 5 to 6 miles from the subject. The dwellings range in size from 5,938 to 11,319 square feet of living area. Each comparable has a full finished

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

IMPR.:	\$	95,662
TOTAL:	\$	114,742

basement, central air conditioning, two to four fireplaces and a four-car attached garage. The comparable properties have improvement assessments ranging from \$11.59 to \$21.02 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Board further finds a reduction in the subject's assessment is not warranted.

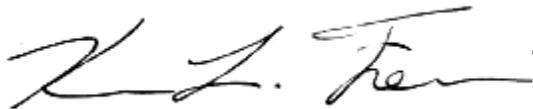

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the Board finds the appellant has not met this burden.

The Board finds the comparables 1, 3 and 4 submitted by the appellant and comparable 2 submitted by the board of review were most similar to the subject in size, age and features. Due to their similarities to the subject, these comparables received the most weight in the Board's analysis. These comparables had improvement assessments that ranged from \$9.47 to \$21.02 per square foot of living area. The two comparables most similar to the subject in size had improvement assessments of \$9.47 and \$16.50 per square foot of living area. The subject's improvement assessment of \$16.50 per square foot of living area is within this range. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's improvement assessment is equitable and a reduction in the subject's assessment is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
