

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Roseanne Dulski  
DOCKET NO.: 03-22805.001-R-1  
PARCEL NO.: 09-23-331-030

The parties of record before the Property Tax Appeal Board (hereinafter PTAB) are Roseanne Dulski, the appellant, by attorney Edward P. Larkin with the law firm of Larkin & Larkin in Park Ridge and the Cook County Board of Review.

The subject property consists of a 6,496 square foot parcel of land containing a 41-year old, frame and masonry, multi-level, single-family dwelling. The improvement contains 1,708 square feet of living area, three baths, air conditioning, and a partial, finished basement. The appellant, via counsel, argued that there was unequal treatment in the assessment process of the improvement as the basis for this appeal.

In support of the equity argument, the appellant submitted assessment data and descriptions of three properties suggested as comparable to the subject. A black and white photograph of the subject property and a brief from the appellant's attorney were also submitted. The data in its entirety reflects that the properties are located within the subject's neighborhood and are improved with a multi-level, frame and masonry, single-family dwelling with two or two and one-half baths, a fireplace, and a partial, finished basement. In addition, one property contains air conditioning. The improvements range: in age from 37 to 38 years; in size from 1,469 to 2,720 square feet of living area; and in improvement assessments from \$10.59 to \$14.27 per square

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 7,227  
IMPR.: \$ 25,272  
TOTAL: \$ 32,499

foot of living area. Based upon this analysis, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's improvement assessment was \$25,272, or \$14.80 per square feet of living area. The board also submitted copies of the property characteristic printouts for the subject as well as four suggested comparables located within the subject's neighborhood. The board's properties contain a multi-level, frame and masonry, single-family dwelling with one or two baths, a fireplace, and a partial or full basement with three finished. In addition, three properties contain air conditioning. The improvements range: in age from 35 to 40 years; in size from 1,463 to 2,122 square feet of living area; and in improvement assessments from \$15.39 to \$16.48 per square foot of living area. In addition, the board submitted copies of its file from the board of review's level appeal. As a result of its analysis, the board requested confirmation of the subject's assessment.

In rebuttal, the appellant's attorney submitted a letter arguing that the board of review's comparables were not as comparables as the appellant's.

After considering the evidence and reviewing the record, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

Appellants who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill. 2d 1, 544 N.E.2d 762 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. Proof of assessment inequity should include assessment data and documentation establishing the physical, locational, and jurisdictional similarities of the suggested comparables to the subject property. *Property Tax Appeal Board Rule 1910.65(b)*. Mathematical equality in the assessment process is not required. A practical uniformity, rather than an absolute one is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395, 169 N.E.2d 769 (1960). Having considered the evidence presented, the PTAB concludes that the appellant has not met this burden and that a reduction is not warranted.

The parties presented assessment data on a total of seven equity comparables. The PTAB finds the appellant's comparable #3 and the board of review's comparables #1, #2 and #3 the most similar to the subject. These four comparables contain a multi-level, masonry, single-family dwelling located within the subject's neighborhood. The improvements range: in age from 35 to 40

years; in size from 1,463 to 1,840 square feet of living area; and in improvement assessments from \$14.27 to \$16.45 per square foot of living area. In comparison, the subject's improvement assessment of \$14.80 per square foot of living area falls within the range established by these comparables. The PTAB accorded less weight to the remaining comparables due to a disparity in size.

As a result of this analysis, the PTAB further finds that the appellant has not adequately demonstrated that the subject's improvement was inequitably assessed by clear and convincing evidence and that a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
