

**PROPERTY TAX APPEAL BOARD'S DECISION**

APPELLANT: Eveline Parchem  
DOCKET NO.: 03-22856.001-R-1  
PARCEL NO.: 09-10-301-100-0000

The parties of record before the Property Tax Appeal Board are Eveline Parchem, the appellant, by attorney Stephanie Park, Chicago, and the Cook County Board of Review.

The subject property consists of a 26-year-old, three-story, six-unit, multi-family dwelling of masonry construction containing 6,678 square feet of living area. Features of the building include six full bathrooms and air-conditioning. The subject is built on slab and located in Maine Township, Cook County.

The appellant, through counsel, appeared before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on eight properties suggested as comparable to the subject. The appellant also submitted a two-page brief, photographs of the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the eight suggested comparables consist of three-story, 26-year-old, 6,678 square foot, multi-family dwellings of masonry construction located on the same street and block as the subject. The comparables contain six full bathrooms and air-conditioning. The improvement assessments range from \$5.20 to \$7.20 per square foot of living area.

At hearing, the appellant's attorney argued that the appellant's comparables are similar to the subject in size, design and

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 2,863  
IMPR.: \$ 50,136  
TOTAL: \$ 52,999

Subject only to the State multiplier as applicable.

location. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$52,999. The subject's improvement assessment is \$50,136 or \$7.51 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with three-story, 26-year-old, 6,678 square foot, multi-family dwellings of masonry construction located on the same street and block as the subject. The comparables contain six full bathrooms and air-conditioning. The improvement assessments range from \$7.20 to \$7.56 per square foot of living area. The board's comparables one, two and three were also submitted by the appellant. The board of review's evidence disclosed that the subject sold in May 2002 for a price of \$530,000.

At hearing, the board's representative stated that the board of review's comparables are similar to the subject in size, location, amenities and design. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

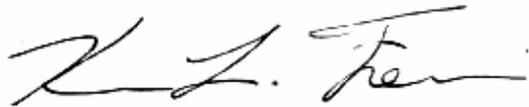

Both parties presented assessment data on a total of nine equity comparables. These nine properties are similar to the subject in size, age, location, design, and amenities and have improvement assessments ranging from \$5.20 to \$7.56 per square foot of living area. The subject's per square foot improvement assessment of \$7.51 falls within the range established by these properties. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the properties contained in the record. As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the

subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
