

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Christopher Vitacek
DOCKET NO.: 03-24367.001-R-1
PARCEL NO.: 14-20-402-004-0000

The parties of record before the Property Tax Appeal Board are Christopher Vitacek, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property consists of an eight-year old, three-story apartment building of masonry construction containing 4,692 square feet of living area with a full finished basement, central air conditioning, and three fireplaces.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. The appellant's map indicates that the comparables are located one-quarter to one-half of a mile from the subject. The comparables are three-story apartment buildings of masonry construction that range in age from four to nine years. Two comparables have full basements and two comparables have no basements. Their living areas are from 5,093 to 5,832 square feet in size, and have improvement assessments of \$9.63 to \$13.05 per square foot. The subject property has an improvement assessment of \$15.59 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. In support of the subject's assessment, the board of review offered the property characteristic sheets and a spreadsheet detailing four suggested comparable properties that are located one mile subject. The comparable properties consist of two-story or

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

IMPR.:	\$	61,231
TOTAL:	\$	68,150

three-story apartment buildings of frame or masonry construction that range in age from 82 to 110 years. Two comparables have full, finished basements and two comparables have full, unfinished basements. One comparable has a two car detached garage and one comparable has a one car attached garage. The dwellings contain 2,562 to 2,925 square feet of living area and have improvement assessments ranging from \$17.08 to \$19.83 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

Both parties presented assessment data on a total of eight equity comparables. The board of review's comparables were significantly smaller and older than the subject and were located one mile from the subject. Comparables two, three, and four differed from the subject in design. The appellant's comparables one, two, and three were significantly larger than the subject. As a result, they received reduced weight in the board's analysis. The appellant's comparable four was slightly larger than the subject but the most similar to the subject in location, age, and physical characteristics and received the greatest weight in the Board's analysis. It had improvement assessment of \$13.05 per square foot. The subject's improvement assessment of \$15.59 per square foot falls above the range established by these comparables. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is not supported by the most comparable properties contained in the record and a reduction in the subject's assessment is warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
