

**PROPERTY TAX APPEAL BOARD'S DECISION**

APPELLANT: Allen Jezek  
DOCKET NO.: 03-24934.001-R-1  
PARCEL NO.: 04-20-303-012-0000

The parties of record before the Property Tax Appeal Board are Allen Jezek, the appellant, by attorney Patrick C. Doody of Chicago and the Cook County Board of Review.

The subject property consists of a 12,797 square foot parcel improved with a 21-year-old, two-story style single-family dwelling of masonry construction containing 3,617 square feet of living area and located in Northfield Township, Cook County. Amenities include two full baths, one half-bath, air conditioning, a fireplace and a two-car garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing four suggested comparable properties located in the same coded assessment neighborhood as the subject. These properties consist of two-story style single-family dwellings of masonry or frame and masonry construction from 13 to 39 years old. The comparable dwellings contain two full baths, half-baths, a fireplace and a garage; three also have air conditioning. The comparables range in size from 2,232 to 3,498 square feet of living area and have improvement assessments ranging from \$12.01 to \$12.48 per square foot of living area. A copy of the subject's 2003 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$48,150, or \$13.31 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	12,480
IMPR.:	\$	48,150
TOTAL:	\$	60,630

Subject only to the State multiplier as applicable.

detailing four suggested comparable properties located in the same coded assessment neighborhood as the subject, three of which are on the same street and block as the subject. The comparables consist of 21-year-old, two-story style single-family dwellings of masonry construction. The comparables contain two or three full baths, basements, air conditioning, and fireplaces; three have additional half-baths; and three have garages. These properties range in size from 3,540 to 3,629 square feet of living area and have improvement assessments ranging from \$13.43 to \$15.28 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The Property Tax Appeal Board finds that the parties submitted eight properties as comparable to the subject. The Board accords the appellant's comparables numbered one and three and the board of review's comparables substantial weight due to their similarities in size, location and/or amenities when compared to the subject. The remaining properties are accorded less weight by the Board due to differences primarily in size when compared to the subject. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
