

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: David Dornseif & Mary Bell  
DOCKET NO.: 03-25146.001-R-1  
PARCEL NO.: 14-29-123-039-0000

The parties of record before the Property Tax Appeal Board are David Dornseif & Mary Bell, the appellants, by attorney Stephanie Park, Chicago, and the Cook County Board of Review.

The subject property consists of a 123-year-old, three-story, multi-family dwelling of masonry construction containing 3,492 square feet of living area and located in Lake View Township, Cook County. Features of the building include three full bathrooms, a full-unfinished basement and a two-car detached garage.

The appellants, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellants submitted assessment data and descriptive information on eight properties suggested as comparable to the subject. The appellants also submitted a two-page brief, a photograph of the subject and a copy of the board of review's decision. Based on the appellants' documents, the eight suggested comparables consist of two-story or three-story, multi-family dwellings of masonry construction located within the subject's neighborhood. The improvements range in size from 3,168 to 3,696 square feet of living area and range in age from 102 to 117 years. The comparables contain from two to four full bathrooms and a finished or unfinished basement. Five comparables contain a two-car detached garage. The improvement assessments range from \$12.00 to \$15.82 per square foot of living

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	11,197
IMPR.:	\$	55,174
TOTAL:	\$	66,371

Subject only to the State multiplier as applicable.

area. Based on this evidence, the appellants requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$70,728. The subject's improvement assessment is \$59,531 or \$17.05 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story or three-story, multi-family dwellings of frame or frame and masonry construction located within three blocks of the subject. The improvements range in size from 2,448 to 2,772 square feet of living area and range in age from 104 to 115 years. The comparables contain two or three full bathrooms. Three comparables have a finished or unfinished basement and three comparables contain a two-car detached garage. The improvement assessments range from \$17.18 to \$18.66 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellants' argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellants have overcome this burden.

The Property Tax Appeal Board finds the appellants' comparables to be the most similar properties to the subject in the record. They are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$12.00 to \$15.82 per square foot of living area. The subject's per square foot improvement assessment of \$17.05 falls above the range established by these properties. The Board finds the board of review's comparables less similar to the subject in improvement size. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported by similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellants have adequately demonstrated that the subject

dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.
