

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Craig Boggs
DOCKET NO.: 03-25153.001-R-1
PARCEL NO.: 14-19-206-022-0000

The parties of record before the Property Tax Appeal Board are Craig Boggs, the appellant, by attorney Stephanie Park, Chicago, and the Cook County Board of Review.

The subject property consists of a 112-year-old, one and one-half story, multi-family dwelling of frame construction containing 1,971 square feet of living area and located in Lake View Township, Cook County. Features of the building include two full bathrooms, a full-finished basement apartment, air-conditioning and a one and one-half car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on eight properties suggested as comparable to the subject. The appellant also submitted a two-page brief, a photograph of the subject and a copy of the board of review's decision. Based on the appellant's documents, the eight suggested comparables consist of one and one-half story or two-story, multi-family dwellings of frame or masonry construction located within the subject's neighborhood. The improvements range in size from 1,840 to 2,088 square feet of living area and range in age from 90 to 112 years. The comparables contain two or three full bathrooms and a finished or unfinished basement. Seven comparables contain a two-car detached garage. The improvement assessments range from \$12.31 to \$16.84 per square foot of living area. Based on this

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 4,800
IMPR.: \$ 41,037
TOTAL: \$ 45,837

Subject only to the State multiplier as applicable.

evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$45,837. The subject's improvement assessment is \$41,037 or \$20.82 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with one and one-half story, multi-family dwellings of frame construction with the same neighborhood code as the subject. The improvements range in size from 1,543 to 1,906 square feet of living area and range in age from 107 to 120 years. The comparables contain two or two and one-half bathrooms and a finished or unfinished basement. Two comparables contain air-conditioning and two comparables have a one-car or two-car detached garage. The improvement assessments range from \$20.82 to \$23.03 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of twelve equity comparables. These twelve properties have improvement assessments ranging from \$12.31 to \$23.03 per square foot of living area. The subject's per square foot improvement assessment of \$20.82 falls within the range established by these properties. In addition, the subject's per square foot improvement assessment is lower than or equal to four of the twelve properties offered for comparison. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
