

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Renee Schwartz  
DOCKET NO.: 03-25158.001-R-1  
PARCEL NO.: 14-30-205-020

The parties of record before the Property Tax Appeal Board (hereinafter PTAB) are Renee Schwartz, the appellant, by Attorney Stephanie Park in Chicago and the Cook County Board of Review.

The subject property consists of a 3,125 square foot parcel of land containing a four-year old, 2,360 square foot, two-story, frame, single-family residence. This improvement contains three and one-half baths, air conditioning, two fireplaces, and a full, finished basement. The appellant, via counsel, argued that there was unequal treatment in the assessment process of the improvement as the basis of this appeal.

In support of the equity argument, the appellant submitted assessment data and descriptions of six properties suggested as comparable to the subject. A black and white photograph of the subject property as well as a brief from the appellant's attorney was also included. The data of the suggested comparables reflects that the properties are located within the subject's neighborhood and improved with a two-story, frame, single-family dwelling with two and one-half, three or three and one-half baths, air conditioning, a fireplace, and a full, unfinished basement. The improvements range: in age from four to 10 years; in size from

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 2,600  
IMPR.: \$ 61,360  
TOTAL: \$ 63,960

2,204 to 2,562 square feet of living area; and in improvement assessments from \$25.84 to \$26.76 per square foot of living area. Based upon this analysis, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's improvement assessment was \$67,520, or \$28.61 per square foot of living area. The board also submitted copies of the property characteristic printouts for the subject as well as four suggested comparables with all the properties located within the subject's neighborhood. The board's properties contain a one or two-story, frame, single-family dwelling with one or two and one-half baths and a partial or full basement with two finished. In addition, two properties contain air conditioning and a fireplace. The improvements range: in age from seven to 99 years; in size from 897 to 2,300 square feet of living area. In addition, the board submitted copies of its file from the board of review's level appeal. As a result of its analysis, the board requested confirmation of the subject's assessment.

After considering the evidence and reviewing the record, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

Appellants who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill. 2d 1, 544 N.E.2d 762 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. Proof of assessment inequity should include assessment data and documentation establishing the physical, locational, and jurisdictional similarities of the suggested comparables to the subject property. *Property Tax Appeal Board Rule 1910.65(b)*. Mathematical equality in the assessment process is not required. A practical uniformity, rather than an absolute one is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395, 169 N.E.2d 769 (1960). Having considered the evidence presented, the PTAB concludes that the appellant has met this burden and that a reduction is warranted.

Both parties presented assessment data on a total of seven equity comparables. The PTAB finds the appellant's comparables #2, #5 and #6 and the board of review's comparable #2 are the most similar to the subject. These four comparables contain a two-story, frame, single-family dwelling located within the subject's neighborhood. The improvements range: in age from seven to 10 years; in size from 3,262 to 3,320 square feet of living area; and in improvement assessments from \$25.94 to \$28.56 per square

foot of living area. In comparison, the subject's improvement assessment of \$28.61 per square foot of living area falls above the range established by these comparables. The PTAB accorded less weight to the remaining properties due to a disparity in size, design and/or age.

As a result of this analysis, the PTAB further finds that the appellant has adequately demonstrated that the subject's dwelling was inequitably assessed by clear and convincing evidence and that a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
