

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Kathy Poczatek
DOCKET NO.: 03-25903.001-R-1 and 03-25903.002-R-1
PARCEL NO.: See below

The parties of record before the Property Tax Appeal Board are Kathy Poczatek, the appellant, by attorney Edward P. Larkin of Park Ridge, and the Cook County Board of Review.

The subject property consists of a 110-year-old, three-story, multi-family dwelling of frame construction containing 2,068 square feet of living area with two full bathrooms and a full-unfinished basement. The subject is located in Lake View Township, Cook County.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellant also submitted a two-page brief, a photograph of the subject, property characteristic printouts for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the three suggested comparables consist of two-story or three-story, multi-family dwellings of frame or frame and masonry construction located on the same street and within two blocks of the subject. The improvements range in size from 3,000 to 4,302 square feet of living area and range in age from 112 to 115 years. The comparables contain three or four full bathrooms. One comparable contains a full-finished basement and two comparables have a two-car detached garage. The improvement assessments range from \$10.64 to \$14.84 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total combined assessment of \$53,022. The subject's improvement assessment is \$31,127 or \$15.05 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, multi-family dwellings of frame construction with the same neighborhood code as the subject. One comparable is located on the same street as the subject. The improvements range in size from 1,410 to 1,848 square feet of living area and range in age from 67 to 115 years. The comparables contain two full bathrooms and a finished or unfinished basement. The improvement assessments range from \$19.63 to \$19.86 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant's attorney submitted a letter arguing that the board of review's comparables are significantly smaller than the subject and two-story in design.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the board of review's comparables to be the most similar overall properties to the subject in the record. These three properties are somewhat similar to the subject in improvement size, amenities, construction and location and have improvement assessments ranging from \$19.63 to \$19.86 per square foot of living area. The subject's per square foot improvement assessment of \$15.05 falls below the range established by these properties. The Board finds the appellant's comparables less similar to the subject in improvement size in that they are significantly larger in size of living area as compared to the subject. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the

subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
