

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Jackie Allwardt
DOCKET NO.: 03-26000.001-R-1
PARCEL NO.: 14-20-301-028-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Jackie Allwardt, the appellant, by attorney Edward Larkin of Larkin & Larkin, of Park Ridge, and the Cook County Board of Review (board).

The subject property consists of a 110-year-old, two-story single-family dwelling of masonry construction containing 3,675 square feet of living area and located in Lakeview Township, Cook County. The residence contains three bathrooms, a finished full basement, air conditioning and a two-car garage.

The appellant, through counsel, submitted evidence claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered three suggested comparable properties located within a quarter mile of the subject. These properties consist of two-story single-family dwellings of frame, masonry or frame and masonry construction and range in age from 105 to 115 years. The comparables have two or three bathrooms with some half-baths and two have finished basements. Two have air conditioning and fireplaces and each has a two or three-car garage. The comparables contain between 2,338 and 4,397 square feet of living area and have improvement assessments ranging from \$42,075 to \$70,045 or from \$13.81 to \$18.00 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$72,300, or \$19.67 per square foot of living area, was disclosed. In support of the subject's assessment, the board offered three suggested comparable properties located within a quarter mile of the subject. The comparables consist of two-story single-family dwellings of frame or masonry construction and range in age from

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the COOK County Board of Review is warranted. The correct assessed valuation of the property is:

TOTAL: \$83,432

93 to 110 years. The comparables contain two or three bathrooms, one with two half baths, full basements, one finished, two with air conditioning, two with fireplaces and two or three-car garages. The comparables contain between 2,514 and 2,924 square feet of living area and have improvement assessments ranging from \$56,104 to \$83,496 or from \$21.04 to \$29.52 per square foot of living area. Based on this evidence, the board requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the PTAB finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the PTAB finds the appellant has failed to overcome this burden.

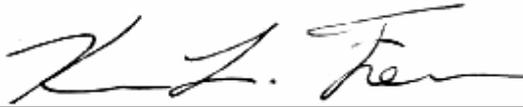

The PTAB finds both parties submitted a total of seven suggested comparables of which only the appellant's comparable two is somewhat similar to the subject. The remaining comparables would require some serious adjustments to conform to the subject. These seven properties have improvement assessments ranging from \$13.81 to \$29.52 per square foot of living area. The subject's per square foot improvement assessment of \$19.67 is within this range of properties. The PTAB gives less weight to the submitted comparables because they lack similarity to the subject in living area and/or construction. After considering the differences in the suggested comparables when compared to the subject property, the PTAB finds the subject's per square foot improvement assessment is supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
