

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Norman Duncan
DOCKET NO.: 03-26024.001-R-1
PARCEL NO.: 07-32-207-004-0000

The parties of record before the Property Tax Appeal Board are Norman Duncan, the appellant, by attorney Rusty A. Payton of Chicago, and the Cook County Board of Review.

The subject property consists of a 42-year-old, one-story, single-family dwelling of frame and masonry construction located in Schaumburg Township, Cook County. Features of the home include two full bathrooms, a full-unfinished basement and a two-car attached garage. The appellant's petition suggests the subject dwelling contains 1,446 square feet of living area, while the board of review's documents indicate the subject contains 1,660 square feet of living area.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. Based on the appellant's documents, the four suggested comparables consist of one-story, single-family dwellings of frame or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,479 to 1,750 square feet of living area and range in age from 32 to 41 years. The comparables contain one, one and one-half or two full bathrooms and a two-car garage. One comparable contains an unfinished basement, two comparables have air-conditioning and three comparables contain a fireplace. The improvement assessments range from \$8.87 to \$9.16 per square foot

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 4,773
IMPR.: \$ 14,940
TOTAL: \$ 19,713

Subject only to the State multiplier as applicable.

of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$21,029. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with one-story, single-family dwellings of masonry or frame and masonry construction located within two blocks of the subject. The improvements range in size from 1,150 to 1,206 square feet of living area and range in age from 39 to 47 years. The comparables contain one or one and one-half bathrooms and a one-car or two-car garage. Two comparables contain an unfinished basement and one comparable has air-conditioning. The improvement assessments range from \$12.00 to \$12.28 per square foot of living area.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The first issue before the Board is the correct square footage attributable to the subject improvement. The Board finds that the appellant did not substantiate the claim that the subject's square footage is different than the public record presented by the board of review. Consequently, the Board finds the subject contains 1,660 square feet of living area. The subject's improvement assessment is \$16,256 or \$9.79 per square foot of living area, based on 1,660 square feet.

The Board finds the appellant's comparables to be the most similar properties to the subject in the record. These four properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$8.87 to \$9.16 per square foot of living area. The subject's per square foot improvement assessment of \$9.79, based on 1,660 square feet of living area, falls above the range established by these properties. The Board finds the board of review's comparables less similar to the subject in size. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board

Docket No. 03-26024.001-R-1

finds the subject's per square foot improvement assessment is not supported by similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
