

**PROPERTY TAX APPEAL BOARD'S DECISION**

APPELLANT: Richard Frawley  
DOCKET NO.: 03-26038.001-R-1  
PARCEL NO.: 07-34-324-037-0000

The parties of record before the Property Tax Appeal Board are Richard Frawley, the appellant, by attorney Rusty A. Payton of Chicago, and the Cook County Board of Review.

The subject property consists of a nine-year-old, two-story, single-family dwelling of frame construction containing 2,884 square feet of living area and located in Schaumburg Township, Cook County. Features of the home include two and one-half bathrooms, a full-unfinished basement, air-conditioning, a fireplace and a two-car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. The appellant also submitted a one-page brief, photographs of the subject and the suggested comparables, a location map and a copy of the board of review's decision. Based on the appellant's documents, the four suggested comparables consist of two-story, single-family dwellings of frame construction with the same neighborhood code as the subject. The improvements range in size from 2,168 to 2,980 square feet of living area and range in age from 16 to 24 years. The comparables contain two and one-half bathrooms, a finished or unfinished basement, air-conditioning and a two-car garage. Three comparables have a fireplace. The improvement assessments range from \$7.88 to \$9.34 per square foot of living area. Based

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 5,931  
IMPR.: \$ 30,952  
TOTAL: \$ 36,883

Subject only to the State multiplier as applicable.

on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$36,883. The subject's improvement assessment is \$30,952 or \$10.73 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, nine or eleven-year-old, single-family dwellings of frame construction located within one block of the subject. The improvements range in size from 2,298 to 2,362 square feet of living area. The comparables contain two and one-half bathrooms, an unfinished basement, air-conditioning, a fireplace and a multi-car garage. The improvement assessments range from \$10.71 to \$12.70 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of eight equity comparables. The Property Tax Appeal Board finds the appellant's comparables one, two and three to be the most similar properties to the subject in the record. They are similar to the subject in improvement size, amenities, design and location, however, they are inferior to the subject in age. These three properties range in age from 17 to 24 years, whereas, the subject is only nine years old. The improvement assessments range from \$7.88 to \$9.32 per square foot of living area. After considering adjustments for age, the Board finds the subject's improvement assessment of \$10.73 per square foot of living area is above the range established but supported by similar properties contained in the record. The board of review's comparables as well as the appellant's comparable four are accorded less weight because they differ from the subject in improvement size.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the

subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
