

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Stanley Clarke  
DOCKET NO.: 03-26048.001-R-1  
PARCEL NO.: 14-20-124-030-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Stanley Clarke, the appellant, by attorney Edward Larkin of Larkin & Larkin, of Park Ridge, and the Cook County Board of Review (board).

The subject property consists of a 105-year-old, three-story, three-unit apartment building of masonry construction containing 4,779 square feet of living area and located in Lakeview Township, Cook County. The apartment property includes three bathrooms, a full basement and a two-car garage.

The appellant's counsel appeared before the PTAB and submitted evidence claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered six suggested comparable properties located within a quarter mile of the subject. These properties consist of three-story, two or six-unit apartment buildings of masonry or frame construction and range in age from 90 to 115 years. The comparables include two or six bathrooms and full or partial basements of which one is finished. Two sites have three or four-car garages. The comparables contain between 3,207 and 8,268 square feet of living area and have improvement assessments ranging from \$31,879 to \$93,254 or from \$9.94 to \$11.81 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$69,589, or \$14.56 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered three suggested comparable properties located within a quarter mile of the subject. The comparables consist of three-story, three-unit buildings of masonry construction. The

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the COOK County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,928  
IMPR.: \$69,589  
TOTAL: \$81,517

Subject only to the State multiplier as applicable.

comparables range in age from 93 to 115 years and have full basements, one with an apartment. They have three bathrooms, two with air conditioning and two with two-car garages. The comparable properties range in size from 3,536 to 4,929 square feet of living area. The board's comparable one contains a Home Improvement Exemption resulting in a partial home improvement assessment. The Home Improvement Exemption's partial assessment of \$30,423 lacks descriptive information; therefore, it will not be included in comparable one's improvement assessment. The improvement assessments range from \$57,888 to \$72,118 or from \$14.63 to \$16.58 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

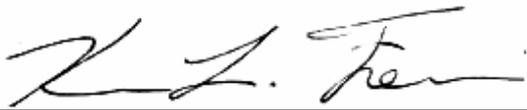

The PTAB finds both parties submitted a total of nine suggested comparables of which only the board's comparables one and two are considered similar to the subject. These nine properties have improvement assessments ranging from \$9.94 to \$16.58 per square foot of living area. The subject's per square foot improvement assessment of \$14.56 is within this range of properties. The PTAB affords less weight to the remaining comparables because they are less similar to the subject in living area or dwelling units or construction and thus have less influence. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the PTAB finds the evidence is insufficient to effect a change in the subject's assessment.

As a result of this analysis, the PTAB finds the appellant did not adequately demonstrate that the subject apartment building was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
