

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Nils Stangenes
DOCKET NO.: 03-26078.001-R-1
PARCEL NO.: 14-29-119-036-0000

The parties of record before the Property Tax Appeal Board are Nils Stangenes, the appellant, by attorney Edward P. Larkin of Park Ridge, and the Cook County Board of Review.

The subject property consists of a 111-year-old, three-story, multi-family dwelling of frame construction containing 3,262 square feet of living area with four full bathrooms, two half-baths, a full-finished basement apartment, three fireplaces and a two-car detached garage. The subject is located in Lake View Township, Cook County.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellant also submitted a three-page brief, a photograph of the subject, Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the three suggested comparables consist of two-story or three-story, multi-family dwellings of masonry or frame construction with the same neighborhood code as the subject. One comparable is located on the same street and block as the subject. The improvements range in size from 2,807 to 3,609 square feet of living area and range in age from 85 to 117 years. The comparables contain two or three full bathrooms, a multi-car detached garage and a finished or unfinished basement. The improvement assessments range from \$11.24 to \$12.70 per square foot of living area. Based on the

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 12,597
IMPR.: \$ 45,651
TOTAL: \$ 58,248

evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$58,248. The subject's improvement assessment is \$45,651 or \$13.99 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story or three-story, multi-family dwellings of frame construction with the same neighborhood code as the subject. The improvements range in size from 2,803 to 3,908 square feet of living area and range in age from 115 to 120 years. The comparables contain three or four full bathrooms and a finished or unfinished basement. One comparable has a fireplace and three comparables contain a two-car garage. The improvement assessments range from \$16.93 to \$17.87 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of seven equity comparables. These seven properties have improvement assessments ranging from \$11.24 to \$17.87 per square foot of living area. The subject's per square foot improvement assessment of \$13.99 falls within the range established by these properties. In addition, the subject's per square foot improvement assessment is lower than four of the seven properties offered for comparison. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the properties contained in the record. As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
