

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Cary A. Gaan  
DOCKET NO.: 03-26646.001-R-1  
PARCEL NO.: 04-08-305-004-0000

The parties of record before the Property Tax Appeal Board are Cary A. Gaan, the appellant, by attorney Patrick J. Cullerton of Thompson Coburn Fagel Haber, and the Cook County Board of Review.

The subject property consists of a 39-year-old, one-story, single-family dwelling of frame and masonry construction containing 2,063 square feet of living area and located in Northfield Township, Cook County. Features of the home include two and one-half bathrooms, a partial-unfinished basement, air-conditioning, a fireplace and a two-car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on seven properties suggested as comparable to the subject. The appellant also submitted a two-page brief as well as photographs, location maps and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables. Based on the appellant's documents, the seven suggested comparables offered by the appellant consist of one-story, single-family dwellings of masonry or frame and masonry construction with the same neighborhood code as the subject and located within approximately one mile of the subject. The improvements range in size from 1,857 to 2,597 square feet of living area and range in age from 28 to 48 years. The comparables contain one and one-half, two or two and one-half bathrooms and a one-car or multi-car attached garage. Six comparables contain a partial-unfinished basement, five comparables have air-conditioning and three comparables contain a

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 10,922  
IMPR.: \$ 27,652  
TOTAL: \$ 38,574

fireplace. The improvement assessments range from \$10.84 to \$11.90 per square foot of living area.

Based on the evidence submitted, the appellant requested a total assessment of \$35,100, with an improvement assessment of \$24,178 or \$11.72 per square foot of living area and a land assessment to remain unchanged at \$10,922.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$38,574. The subject's improvement assessment is \$27,652 or \$13.40 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with one-story, single-family dwellings of masonry or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,841 to 2,080 square feet of living area and range in age from 35 to 41 years. The comparables contain one and one-half, two or two and one-half bathrooms, a finished or unfinished basement, one or two fireplaces and a two-car attached garage. Two comparables contain air-conditioning. The improvement assessments range from \$13.63 to \$13.76 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant's comparables four and seven and the board of review's comparables one and two to be the most similar properties to the subject in the record. These four properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$11.72 to \$13.76 per square foot of living area. The subject's per square foot improvement assessment of \$13.40 falls within the range established by these properties. The Board finds the remaining comparables less similar to the subject in improvement size. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot

improvement assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
