

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Ahmed Garcevic
DOCKET NO.: 03-26868.001-R-1
PARCEL NO.: 13-21-103-031-0000

The parties of record before the Property Tax Appeal Board are Ahmed Garcevic, the appellant, by attorney Rusty A. Payton of Chicago, and the Cook County Board of Review.

The subject property consists of an 87-year-old, one-story, single-family dwelling of stucco construction containing 1,018 square feet of living area and located in Jefferson Township, Cook County. Features of the home include two full bathrooms, a full-finished basement and a two-car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on four properties suggested as comparable to the subject. Based on the appellant's documents, the four suggested comparables consist of one-story or one and one-half story, single-family dwellings of stucco construction with the same neighborhood code as the subject. The improvements range in size from 1,237 to 1,263 square feet of living area and range in age from 80 to 85 years. The comparables contain one full bathroom and an unfinished basement. No garage descriptions were provided. The improvement assessments range from \$15.91 to \$16.97 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 3,679
IMPR.: \$ 20,758
TOTAL: \$ 24,437

Subject only to the State multiplier as applicable.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$24,437. The subject's improvement assessment is \$20,758 or \$20.39 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with one-story, single-family dwellings of frame or stucco construction with the same neighborhood code as the subject. The improvements range in size from 834 to 897 square feet of living area and range in age from 81 to 90 years. The comparables contain one full bathroom, an unfinished basement and a one-car, two-car or three-car garage. The improvement assessments range from \$20.27 to \$21.11 per square foot of living area.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of eight equity comparables. These eight properties have improvement assessments ranging from \$15.91 to \$21.11 per square foot of living area. The subject's per square foot improvement assessment of \$20.39 falls within the range established by these properties. In addition, the subject's per square foot improvement assessment is equal to or lower than three of the eight properties offered for comparison. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
