

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Joseph Bobek
DOCKET NO.: 03-27597.001-R-1
PARCEL NO.: 18-35-226-013-0000

The parties of record before the Property Tax Appeal Board are Joseph Bobek, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property consists of a 25-year old, three-story multi-family building of masonry construction containing 5,880 square feet of living area with a partial, unfinished basement.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. The appellant's map indicates the comparables are in close proximity to the subject. The comparables are three-story multi-family buildings of masonry construction that are 26 or 33 years old. One comparable has a partial basement and three comparables have no basements. Their living areas are 5,880 or 5,925 square feet in size, and have improvement assessments of \$5.42 to \$5.93 per square foot. The subject property has an improvement assessment of \$7.31 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. In support of the subject's assessment, the board of review offered the property characteristic sheets and a spreadsheet detailing four suggested comparable properties that are located on the same block as the subject. The comparable properties consist of three-story multi-family buildings of masonry construction that are 25 years old. Two comparables have full, unfinished

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

IMPR.:	\$	42,983
TOTAL:	\$	46,583

basements and two comparables have partial, finished basements. The dwellings contain 5,880 or 5,928 square feet of living area and have improvement assessments of \$7.31 or \$7.40 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

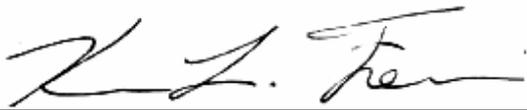

Both parties presented assessment data on a total of eight equity comparables. The appellant's comparable one, two, and three differed from the subject in foundation. As a result, they received reduced weight in the board's analysis. The appellant's comparable four and the board of review's comparables were more similar to the subject in location, size, and physical characteristics. They had improvement assessments of \$5.93 to \$7.40 and support the subject's improvement assessment of \$7.31. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the most comparable properties contained in the record and a reduction in the subject's assessment is not warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
