

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Marquerite Guido
DOCKET NO.: 03-28312.001-R-1
PARCEL NO.: 18-18-101-025-0000

The parties of record before the Property Tax Appeal Board are Marquerite Guido, the appellant, by attorney George J. Relias with the law firm of Fisk Kart Katz and Regan, in Chicago, and the Cook County Board of Review.

The subject property consists of a fifteen-year-old, one and one-half story, single-family dwelling of frame and masonry construction containing 3,168 square feet of living area and located in Lyons Township, Cook County. Features of the home include two and one-half bathrooms, a full-unfinished basement, air-conditioning, a fireplace and a two-car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on five properties suggested as comparable to the subject. The appellant also submitted a two-page brief, Cook County Assessor's Internet Database sheets for the subject and the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the five suggested comparables consist of one and one-half story, fifteen-year-old, single-family dwellings of masonry or frame and masonry construction located on the same street and block as the subject. The improvements contain 2,620 or 2,830 square feet of living area. The comparables contain two and one-half bathrooms, a full-unfinished basement, air-conditioning, one or two fireplaces and a two-car attached garage. The improvement

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 3,783
IMPR.: \$ 49,104
TOTAL: \$ 52,887

Subject only to the State multiplier as applicable.

assessments range from \$11.09 to \$16.48 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$57,639. The subject's improvement assessment is \$53,856 or \$17.00 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with one and one-half story or two-story, fifteen-year-old, single-family dwellings of masonry or frame and masonry construction located on the same street and block as the subject. The improvements contain 2,574 or 2,812 square feet of living area. The comparables contain two and one-half bathrooms, a full-unfinished basement, air-conditioning, a fireplace and a two-car attached garage. The improvement assessments range from \$16.87 to \$17.55 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Board finds the appellant's comparables one, four and five to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, age, amenities and location and have improvement assessments ranging from \$11.09 to \$16.48 per square foot of living area. The subject's per square foot improvement assessment of \$17.00 falls above the range established by these properties. The Board finds the remaining comparables less similar to the subject in size. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported by similar properties contained in the record.

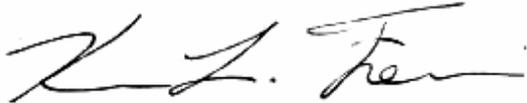

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject

dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
