

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: William Clark
DOCKET NO.: 03-28949.001-R-1
PARCEL NO.: 18-22-109-013

The parties of record before the Property Tax Appeal Board (hereinafter PTAB) are William Clark, the appellant, by attorney Michael Griffin in Chicago and the Cook County Board of Review.

The subject property consists of a 6,650 square foot parcel of land containing a four-year old, multi-level, frame and masonry, single-family dwelling. The improvement contains 1,374 square feet of living area, one and one-half baths, air conditioning, a fireplace, and a partial, finished basement. The appellant, via counsel, argued that there was unequal treatment in the assessment process of the improvement as the basis of this appeal.

In support of the equity argument, the appellant submitted assessment data and descriptions of four properties suggested as comparable to the subject. A brief from the appellant's attorney were also submitted. The data in its entirety reflects that the properties are located within the subject's neighborhood and are improved with a multi-level, masonry or frame and masonry, single-family dwelling with one and one-half or two baths, air conditioning, and a partial, finished basement. The improvements range in age from 15 to 47 years; in size from 1,377 to 1,813 square feet of living area; and in improvement assessments from \$8.13 to \$9.87 per square foot of living area. Based upon this

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$ 3,257
IMPR.:	\$ 15,248
TOTAL:	\$ 18,505

Subject only to the State multiplier as applicable.

analysis, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's improvement assessment was \$15,248, or \$11.10 per square feet of living area. The board also submitted copies of the property characteristic printouts for the subject as well as four suggested comparables located within one-half block of the subject. The board's properties contain a multi-level, frame and masonry, single-family dwelling with one and one-half baths, air conditioning, a partial, finished basement, and, for three properties, a fireplace. The improvements are five-years old and range in size from 1,312 to 1,437 square feet of living area and in improvement assessments from \$11.69 to \$12.31 per square foot of living area. As a result of its analysis, the board requested confirmation of the subject's assessment.

After considering the evidence and reviewing the record, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

Appellants who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill. 2d 1, 544 N.E.2d 762 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. Proof of assessment inequity should include assessment data and documentation establishing the physical, locational, and jurisdictional similarities of the suggested comparables to the subject property. Property Tax Appeal Board Rule 1910.65(b). Mathematical equality in the assessment process is not required. A practical uniformity, rather than an absolute one is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395, 169 N.E.2d 769 (1960). Having considered the evidence presented, the PTAB concludes that the appellant has not met this burden and that a reduction is not warranted.

The parties presented assessment data on a total of eight equity comparables. The PTAB finds the board of review's comparables are the most similar to the subject. These four comparables contain a multi-level, frame and masonry, single-family dwelling located within one-half block of the subject. The improvements are five-years old and range in size from 1,312 to 1,437 square feet of living area and in improvement assessments from \$11.69 to \$12.31 per square foot of living area. In comparison, the subject's improvement assessment of \$11.10 per square foot of living area falls below the range established by these comparables. The PTAB

Docket No. 03-28949.001-R-1

accorded less weight to the remaining comparables due to a disparity in size, age, and/or location.

As a result of this analysis, the PTAB further finds that the appellant has adequately demonstrated that the subject's improvement was not inequitably assessed by clear and convincing evidence and that a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
