

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Robert Zimmers
DOCKET NO.: 03-29271.001-R-1
PARCEL NO.: 14-33-401-035-0000
TOWNSHIP: North

The parties of record before the Property Tax Appeal Board are Robert Zimmers, the appellant, by attorney Donald T. Rubin of Rubin & Norris, LLC in Chicago, and the Cook County Board of Review.

The subject property consists of a 115-year-old, two-story, multi-family dwelling of masonry construction containing 2,688 square feet of living area with three full bathrooms and a full finished basement apartment. The subject is located in North Township, Cook County.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on five properties suggested as comparable to the subject. The appellant also submitted a two-page brief, photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the five suggested comparables consist of two-story or three-story, multi-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 3,309 to 4,104 square feet of living area and range in age from 76 to 120 years. The comparables contain three or four full bathrooms. Four comparables contain a finished or unfinished basement and two comparables have a two-car detached garage. The improvement assessments range from \$15.03 to \$17.99 per square foot of living

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 9,474
IMPR.: \$ 55,435
TOTAL: \$ 64,909

Subject only to the State multiplier as applicable.

area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$64,909. The subject's improvement assessment is \$55,435 or \$20.62 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, multi-family dwellings of masonry construction located within four blocks of the subject. The improvements range in size from 2,113 to 2,719 square feet of living area and range in age from 114 to 136 years. The comparables contain two and one-half or three full bathrooms. Three comparables contain a finished or unfinished basement, two comparables have fireplaces and one comparable contains a two-car detached garage. The improvement assessments range from \$20.57 to \$24.73 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the board of review's comparables to be the most similar properties to the subject in the record. These four properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$20.57 to \$24.73 per square foot of living area. The subject's per square foot improvement assessment of \$20.62 falls within the range established by these properties. The Board finds the appellant's comparables less similar to the subject in improvement size and/or design. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record. As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
