

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Steve Maksud
DOCKET NO.: 03-29452.001-R-1
PARCEL NO.: 13-08-120-007-0000

The parties of record before the Property Tax Appeal Board are Steve Maksud, the appellant, by attorney Stephanie Park, Chicago, and the Cook County Board of Review.

The subject property consists of a 12-year-old, multi-level, single-family dwelling of frame and masonry construction containing 1,156 square feet of living area and located in Jefferson Township, Cook County. Features of the home include two bathrooms, a partial-finished basement, air-conditioning and a fireplace.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on eight properties suggested as comparable to the subject. The appellant also submitted a two-page brief, a photograph of the subject and a copy of the board of review's decision. Based on the appellant's documents, the eight suggested comparables consist of multi-level, single-family dwellings of frame and masonry construction located within the subject's neighborhood. The improvements range in size from 1,137 to 1,239 square feet of living area and range in age from 37 to 45 years. The comparables contain one or one and one-half bathrooms. Seven comparables contain a finished or unfinished basement, two comparables have air-conditioning, one comparable has a fireplace and six comparables contain a one-car or two-car garage. The improvement assessments range from \$17.54 to \$19.20 per square foot of living area. Based on this evidence, the

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	4,153
IMPR.:	\$	25,103
TOTAL:	\$	29,256

Subject only to the State multiplier as applicable.

appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$29,256. The subject's improvement assessment is \$25,103 or \$21.72 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on two properties suggested as comparable to the subject. The suggested comparables are improved with multi-level, 42-year-old, 840 square foot, single-family dwellings of frame or frame and masonry construction with the same neighborhood code as the subject. The comparables contain one full bathroom, a partial-finished basement and a two-car garage. The improvement assessments are \$24.38 and \$24.43 per square foot of living area, respectively. The board of review's evidence disclosed that the subject sold in October 2001 for a price of \$320,000. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of ten equity comparables. The Property Tax Appeal Board finds the appellant's comparables to be the most similar properties to the subject in the record. They are similar to the subject in improvement size, amenities, design and location, however, they are inferior to the subject in age. The appellant's comparables range in age from 37 to 45 years, whereas, the subject is only 12 years old. The improvement assessments range from \$17.54 to \$19.20 per square foot of living area. After considering adjustments for age, the Board finds the subject's improvement assessment of \$21.72 per square foot of living area is above the range established but supported by similar properties contained in the record. The board of review's comparables are accorded less weight because they differ from the subject in size.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
