

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Juanita Martinez
DOCKET NO.: 03-29457.001-R-1
PARCEL NO.: 13-36-117-022-0000

The parties of record before the Property Tax Appeal Board are Juanita Martinez, the appellant, by attorney Stephanie Park, Chicago, and the Cook County Board of Review.

The subject property consists of a 40-year-old, one-story, single-family dwelling of masonry construction containing 1,242 square feet of living area and located in West Chicago Township, Cook County. Features of the home include one and one-half bathrooms and a full-unfinished basement.

The appellant, through counsel, appeared before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on eight properties suggested as comparable to the subject. The appellant also submitted a two-page brief, a photograph of the subject and a copy of the board of review's decision. Based on the appellant's documents, the eight suggested comparables consist of two-story, single-family dwellings of frame or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,240 to 1,354 square feet of living area and range in age from 17 to 31 years. The comparables contain one or one and one-half bathrooms. Seven comparables contain an unfinished basement and two comparables have a two-car detached garage. The improvement assessments range from \$13.30 to \$14.84 per square foot of living area. Based on the evidence submitted, the

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	1,598
IMPR.:	\$	21,112
TOTAL:	\$	22,710

Subject only to the State multiplier as applicable.

appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$22,710. The subject's improvement assessment is \$21,112 or \$17.00 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with one-story or two-story, 40-year-old, single-family dwellings of masonry construction located on the same street and block as the subject. The improvements range in size from 1,224 to 1,302 square feet of living area. The comparables contain one or one and one-half bathrooms. Two comparables contain a finished or unfinished basement and air-conditioning. The improvement assessments range from \$17.00 to \$17.79 per square foot of living area.

At hearing, the board's representative stated that the board of review's comparables are similar to the subject in size, amenities, age and location. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

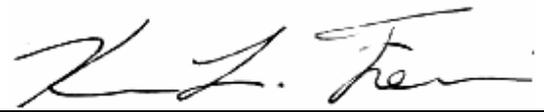

Both parties submitted a total of eleven properties somewhat similar to the subject but with some variations in age, design and/or type of construction. These eleven properties have improvement assessments ranging from \$13.30 to \$17.79 per square foot of living area. The subject's per square foot improvement assessment of \$17.00 falls within the range established by these properties. The Board finds of the eleven comparables offered by the parties, seven vary from the subject in age, eight vary in construction and two vary in design. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the evidence submitted by both parties does not support a change in the subject's current assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
