

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Colm Heaney
DOCKET NO.: 03-29529.001-R-1
PARCEL NO.: 14-32-400-010-0000
TOWNSHIP: North

The parties of record before the Property Tax Appeal Board are Colm Heaney, the appellant, by attorney Edward P. Larkin of Park Ridge, and the Cook County Board of Review.

The subject property consists of a 94-year-old, three-story, multi-family dwelling of masonry construction containing 4,280 square feet of living area and located in North Township, Cook County. Features of the building include three full bathrooms, air-conditioning, two fireplaces, a partial-unfinished basement and a two-car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellant also submitted a three-page brief, Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the three suggested comparables consist of three-story, multi-family dwellings of masonry construction located within two blocks of the subject. Two comparables are located on the same street as the subject. The improvements range in size from 3,816 to 8,456 square feet of living area and range in age from 89 to 118 years. The comparables contain from three to six full bathrooms. One comparable contains six half baths and two comparables have an unfinished basement. The improvement assessments range from \$7.18 to \$10.65 per square foot of living area. Based on the

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 13,086
IMPR.: \$ 53,606
TOTAL: \$ 66,692

evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$66,692. The subject's improvement assessment is \$53,606 or \$12.52 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story or three-story, 115-year-old, multi-family dwellings of masonry construction located within one-half mile of the subject. The improvements range in size from 4,230 to 4,884 square feet of living area. The comparables contain three or four full bathrooms and a finished or unfinished basement. One comparable has a two-car detached garage. The improvement assessments range from \$14.29 to \$18.18 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant's attorney submitted a letter arguing that none of the board of review's comparables are located on the same street as the subject and that the appellant's comparables are located in closer proximity to the subject.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant's comparables one and two and the board of review's comparables two and three to be the most similar properties to the subject in the record. These four properties are similar to the subject in improvement size, design, age and location and have improvement assessments ranging from \$7.18 to \$18.18 per square foot of living area. The subject's per square foot improvement assessment of \$12.52 falls within the range established by these properties. The Board finds the remaining comparables less similar to the subject in improvement size and/or design. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square

foot improvement assessment is supported by similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
