

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Gerda Bernstein
DOCKET NO.: 03-30029.001-R-1
PARCEL NO.: 14-33-416-006-0000
TOWNSHIP: North

The parties of record before the Property Tax Appeal Board are Gerda Bernstein, the appellant, by attorney Donald T. Rubin of Rubin & Norris, LLC in Chicago, and the Cook County Board of Review.

The subject property consists of an 85-year-old, two-story, Class 2-10, single-family dwelling of masonry construction containing 2,795 square feet of living area. Features of the home include three full bathrooms, air-conditioning and a fireplace. The subject is built on slab and located in North Township, Cook County.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellant also submitted a two-page brief, photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the three suggested comparables offered by the appellant consist of two-story, Class 2-10, single-family dwellings of masonry construction located within the same survey block as the subject. One comparable is located on the same street as the subject. The improvements range in size from 2,795 to 3,958 square feet of living area and range in age from 77 to 85 years. The comparables contain two and one-half bathrooms, air-conditioning and a fireplace. One comparable has an

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 19,279
IMPR.: \$ 63,754
TOTAL: \$ 83,033

unfinished basement and two comparables contain a one-car detached garage. The improvement assessments range from \$19.74 to \$22.81 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$101,088. The subject's improvement assessment is \$81,809 or \$29.27 per square foot of living area. In support of the assessment the board submitted a property characteristic printout and descriptive data on one property suggested as comparable to the subject. The suggested comparable is improved with a two-story, Class 2-06, 2,536 square foot, 106-year-old, single-family dwelling of masonry construction with the same neighborhood code as the subject. The comparable contains three full bathrooms, a two-car detached garage and a full-finished basement. The improvement assessment is \$33.95 per square foot of living area. The board of review's evidence disclosed that the subject sold in October 2000 for a price of \$1,012,000. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The Board finds the appellant's comparables to be the most similar properties to the subject in the record. These three properties are similar to the subject in design, amenities, age and location. In addition, like the subject, they are all Class 2-10 single-family dwellings and have improvement assessments ranging from \$19.74 to \$22.81 per square foot of living area. The subject's per square foot improvement assessment of \$29.27 falls well above the range established by these properties. The Board finds the board of review's one comparable less similar to the subject in location. In addition, unlike the subject, it is a Class 2-06 single-family dwelling. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
