

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Thomas and Patricia Jobe
DOCKET NO.: 03-30670.001-R-1
PARCEL NO.: 20-11-207-001-0000

The parties of record before the Property Tax Appeal Board are Thomas and Patricia Jobe, the appellants, by attorney Gary H. Smith in Chicago, and the Cook County Board of Review.

The subject property consists of a 107-year-old, three-story, single-family dwelling of masonry construction containing 7,270 square feet of living area and located in Hyde Park Township, Cook County. Features of the home include four full bathrooms, three half-baths, a full-unfinished basement, six fireplaces and a two-car detached garage.

The appellants, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellants submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellants also submitted a two-page brief, a photograph of the subject and a copy of the board of review's decision. Based on the appellants' documents, the three suggested comparables consist of single-family dwellings of masonry, frame or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 5,400 to 6,519 square feet of living area. The comparables contain from two and one-half to four full bathrooms. Two comparables contain an unfinished basement and one comparable has a two-car detached garage. The improvement assessments range from \$17.40 to \$18.23 per square foot of living area. Based on the evidence submitted, the appellants requested a reduction in the subject's improvement assessment.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 5,527
IMPR.: \$ 140,142
TOTAL: \$ 145,669

Subject only to the State multiplier as applicable.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$145,669. The subject's improvement assessment is \$140,142 or \$19.28 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with two-story, 95 or 105-year-old, single-family dwellings of masonry construction with the same neighborhood code as the subject. Two comparables are located on the same street and block as the subject. The improvements range in size from 4,569 to 8,456 square feet of living area. The comparables contain four or five full bathrooms, an unfinished basement and from one to three fireplaces. Two comparables contain a two-car garage. The improvement assessments range from \$20.03 to \$20.89 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellants' argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellants have not overcome this burden.

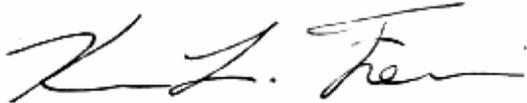

Both parties submitted a total of six properties as suggested comparables to the subject but with many variations in living area, construction and/or amenities. These six properties have improvement assessments ranging from \$17.40 to \$20.89 per square foot of living area. The subject's per square foot improvement assessment of \$19.28 falls within the range established by these properties. The Board finds of the six comparables offered by the parties, three vary substantially from the subject in living area, three vary in amenities and two vary in type of construction. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the evidence submitted by both parties does not support a change in the subject's current assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellants have failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
