

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Barbara Pilolli
DOCKET NO.: 03-30709.001-R-1
PARCEL NO.: 13-19-328-013-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Barbara Pilolli, the appellant, by attorney Melissa Whitley of Marino & Associates, P.C. of Chicago and the Cook County Board of Review (board).

The subject property consists of a 52-year-old, one and part two-story single-family dwelling of masonry construction containing 1,482 square feet of living area and located in Jefferson Township, Cook County. The residence contains one bathroom, air conditioning, a full basement and a one-car garage.

The appellant's attorney appeared before the PTAB and submitted evidence claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered four suggested comparable properties located within a quarter mile of the subject. These properties consist of one and part two-story single-family dwellings of masonry, frame or frame and masonry construction and range in age from 52 to 73 years. The comparables have one and one half bathrooms, one comparable has air conditioning and each site has a two-car garage. No evidence of basements was offered. The comparables contain between 1,632 and 1,876 square feet of living area and have improvement assessments ranging from \$21,084 to \$22,640 or from \$11.37 to \$12.92 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$23,064, or \$15.56 per square foot of living area, was disclosed. In support of the subject's assessment, the board offered four suggested comparable properties located within one block of the subject. The comparables consist of one and part two-story single-family

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the COOK County Board of Review is warranted. The correct assessed valuation of the property is:

dwellings of masonry construction and range in age from 50 to 54 years. The comparables contain one bathroom with some half baths, full basements, one finished; two have air conditioning and each with a one or two-car garage. The comparables contain between 1,324 and 1,451 square feet of living area and have improvement assessments of between \$21,606 and \$23,663 or from \$16.03 to \$16.79 per square foot of living area. Based on this evidence, the board requested confirmation of the subject property's assessment.

After having heard the testimony and considering the evidence, the PTAB finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the PTAB finds the appellant has failed to overcome this burden.

The PTAB finds the board's four comparables are the comparables more similar to the subject. These more similar comparable properties have improvement assessments ranging from \$16.03 to \$16.79 per square foot of living area. The subject's per square foot improvement assessment of \$15.56 is below this range of properties. The PTAB finds the appellant's comparables carry less weight because they are less similar in construction, age or living area. After considering the differences in the suggested comparables when compared to the subject property, the PTAB finds the submitted evidence is insufficient to effect a change in the subject's assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
