

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: A. Rodrigues
DOCKET NO.: 04-20133.001-R-1
PARCEL NO.: 23-24-405-075-0000

The parties of record before the Property Tax Appeal Board are A. Rodrigues, the appellant, by attorney Rusty A. Payton of Chicago and the Cook County Board of Review.

The subject property consists of a 3,202 square foot parcel improved with a nine-year-old, one-story style single-family townhouse dwelling of frame and masonry construction containing 1,700 square feet of living area located in Palos Township, Cook County. The improvement features amenities such as two full baths, a full unfinished basement, air conditioning, a fireplace and a two-car garage.

The appellant, through counsel, submitted evidence to the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered a spreadsheet detailing four suggested comparable properties located in the same general area as the subject. These properties consist of seven-year-old, two-story style single-family townhouse dwellings of frame and masonry construction. The comparable dwellings contain 1,648 square feet of living area with features such as unfinished basements, air conditioning, and fireplaces. These comparables have improvement assessments ranging from \$8.75 to \$8.79 per square foot of living area. A copy of the subject's 2004 board of review final decision was also included. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$20,848, or \$12.26 per square foot of living area, was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing four suggested comparable properties located in the same coded assessment neighborhood as the subject, three of which are on the same street and block as the subject. The comparables

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	4,098
IMPR.:	\$	20,848
TOTAL:	\$	24,946

consist of nine-year-old, two-story style single-family townhouse dwellings of frame and masonry construction. The comparables contain 1,700 square feet of living area and have two full baths, full unfinished basements, air conditioning, fireplaces and two-car garages. The comparables have improvement assessments ranging from \$12.30 to \$12.82 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has failed to overcome this burden.

The Property Tax Appeal Board finds that the parties submitted eight properties as comparable to the subject. Of the properties submitted, the Board finds that three of the board of review's comparables are on the same street and block as the subject; are the same size as the subject; and feature amenities similar to the subject. The Board finds that these properties are the most similar to the subject in the record. The Board finds the remaining properties to be less similar to the subject to varying degrees in location and/or age and size. The properties found the most similar have improvement assessments ranging from \$12.30 to \$12.82 per square foot of living area. The subject's per square foot improvement assessment of \$12.26 falls slightly below the range established by these properties. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the properties found the most similar.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
