

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: John Resch  
DOCKET NO.: 04-20201.001-R-1  
PARCEL NO.: 01-34-106-014-0000

The parties of record before the Property Tax Appeal Board (PTAB) are John Resch, the appellant, by attorney Joseph G. Kusper of Storino, Ramello & Durkin of Rosemont and the Cook County Board of Review (board).

The subject property with 1.585 acres of land consists of a 12-year-old, two-story single-family dwelling of masonry construction containing 11,090 square feet of living area and located in Barrington Township, Cook County. The residence contains seven full and three half bathrooms, a finished full basement, air conditioning, six fireplaces and a four-car garage.

The appellant, through counsel, submitted evidence before the PTAB claiming unequal treatment in the assessment process as the basis of the appeal. In support of this argument, the appellant offered three suggested comparable properties located within one and one half miles of the subject. The three comparables each contain approximately five acres of land. These properties consist of two-story single-family dwellings of masonry or frame and masonry construction and range in age from six to 65 years. The comparables have three, four or six bathrooms, with half-baths and full or partial basements. All homes are air-conditioned and all have fireplaces. The comparables have two or three-car garages. The comparables contain between 4,386 and 6,358 square feet of living area and have improvement assessments ranging from \$9,900 to \$58,166 or from \$2.25 to \$10.12 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's assessment.

The board submitted its "Board of Review Notes on Appeal" wherein the subject's final improvement assessment of \$173,908, or \$15.68 per square foot of living area, was disclosed. In support of the subject's assessment, the board offered four suggested comparable properties located within a quarter mile of the subject. The four comparables range in size from 1.33 acres to 1.78 acres. The comparables consist of two-story single-family dwellings of masonry construction and range in age from nine to 16 years. The

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 24,855  
IMPR. \$173,908  
TOTAL: \$198,763

Subject only to the State multiplier as applicable.

comparables contain three, four or six bathrooms with half-baths, all with full basements, two finished; all have air conditioning, fireplaces and three or four-car garages. The comparables contain between 5,326 and 9,772 square feet of living area and have improvement assessments of between \$95,485 and \$152,461 or from \$15.61 to \$18.37 per square foot of living area. Based on this evidence, the board requested confirmation of the subject property's assessment.

After reviewing the record and considering the evidence, the PTAB finds that it has jurisdiction over the parties and the subject matter of this appeal. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the PTAB finds the appellant has failed to overcome this burden.

The PTAB finds only the board's comparable one is somewhat similar to the subject at \$15.61 per square foot but is smaller in size and would require an upward adjustment to conform to the subject. The subject's per square foot improvement assessment of \$15.68 is above this single similar property. The PTAB gives less weight to the remaining six comparables because they are less similar to the subject in living area or age. After considering both parties' suggested comparables when compared to the subject property, the PTAB finds the evidence of one submitted similar property is insufficient evidence to demonstrate inequity and to effect a change in the subject's assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and no reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
