

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Peter DiFronzo
DOCKET NO.: 04-20295.001-R-1
PARCEL NO.: 01-27-300-006-0000

The parties of record before the Property Tax Appeal Board are Peter DiFronzo, the appellant, by attorney Joseph G. Kusper of Storino, Ramello & Durkin in Rosemont, and the Cook County Board of Review.

The subject property consists of a twelve-year-old, two-story, single-family dwelling of masonry construction containing 6,559 square feet of living area and located in Barrington Township, Cook County. Features of the residence include four and one-half bathrooms, a full-finished basement, air-conditioning, a fireplace and a four-car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellant also submitted a two-page brief, photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the three suggested comparables offered by the appellant consist of one-story or two-story, single-family dwellings of masonry, stucco or frame and masonry construction located within several blocks of the subject. The improvements range in size from 6,293 to 7,477 square feet of living area and range in age from 21 to 26 years. The comparables contain from three to five full bathrooms, two or three fireplaces, air-conditioning and a multi-car attached garage. Two comparables contain a full-unfinished basement. The improvement assessments range from \$11.80 to \$13.05 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 14,698
IMPR.: \$ 98,102
TOTAL: \$ 112,800

Subject only to the State multiplier as applicable.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$112,800. The subject's improvement assessment is \$98,102 or \$14.96 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story, single-family dwellings of masonry or frame and masonry construction with the same neighborhood code as the subject. Three of the comparables are located on the same street and block as the subject. The improvements range in size from 5,179 to 10,042 square feet of living area and range in age from three to sixteen years. The comparables contain three and one-half or five full bathrooms, a full-finished or unfinished basement, from one to three fireplaces, air-conditioning and a three-car or four-car attached garage. The improvement assessments range from \$15.42 to \$18.83 per square foot of living area. In addition, the board submitted copies of documentation from the board of review level complaint file. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

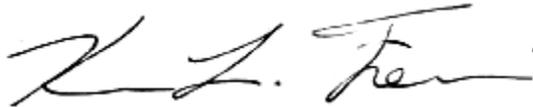

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties submitted a total of seven properties similar to the subject in amenities and location but with many variations in improvement size, exterior construction, age and design. These seven properties have improvement assessments ranging from \$11.80 to \$18.83 per square foot of living area. The subject's per square foot improvement assessment of \$14.96 falls within the range established by these properties. The Board finds of the seven properties offered for comparison, five vary from the subject in improvement size, one varies in design, two vary in age and three vary in exterior construction. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the evidence submitted by both parties does not support a change in the subject's current assessment.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
