

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Latrice Golden
DOCKET NO.: 04-20552.001-R-1 and 04-20552.002-R-1
PARCEL NO.: See below
TOWNSHIP: Proviso

The parties of record before the Property Tax Appeal Board are Latrice Golden, the appellant, by attorney Melissa K. Whitley of Marino & Associates in Chicago, and the Cook County Board of Review.

The subject property consists of a 44-year-old, multi-level, single-family dwelling of frame construction containing 1,056 square feet of living area and sited on a 3,150 square foot lot and a vacant, adjacent 2-41 parcel located in Proviso Township, Cook County. Features of the residence include one full bathroom, a partial-finished basement, air-conditioning and a two-car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellant also submitted a one-page brief, photographs of the subject and the suggested comparables and a copy of the board of review's decision. Based on the appellant's documents, the three suggested comparables consist of multi-level, single-family dwellings of frame or frame and masonry construction located within eight and one-half blocks of the subject. The improvements range in size from 1,100 to 1,337 square feet of living area and range in age from eight to 43 years. The comparables contain one or two full bathrooms, a partial-finished basement and a two-car detached garage. Two comparables have air-conditioning. The improvement assessments range from \$9.06 to \$9.44 per square foot of living area. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's improvement assessment of \$11,345 or \$10.74 per square foot of living area. In support of the assessment, the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with multi-level, 42 or 43-year-old, single-family dwellings of frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 939 to 961 square feet of living area. The comparables contain one full bathroom, a partial-finished basement and a two-car detached garage. The improvement assessments range from \$11.49 to \$11.79 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant's comparable one and the board of review's comparables to be the most similar properties to the subject in the record. These four properties are similar to the subject in improvement size, age, amenities and location and have improvement assessments ranging from \$9.06 to \$11.79 per square foot of living area. The subject's improvement assessment of \$10.74 per square foot of living area is within this range. The appellant's remaining comparables are accorded less weight because they differ from the subject in improvement size and/or age. After considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
