

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Mohammed Hussien  
DOCKET NO.: 04-20728.001-R-1  
PARCEL NO.: 24-17-309-026-0000

The parties of record before the Property Tax Appeal Board (PTAB) are Mohammed Hussien, the appellant, by attorney Melissa K. Whitley of Marino & Associates in Chicago, and the Cook County Board of Review (board).

The subject property consists of a 25-year-old, multi-level, single-family dwelling of frame and masonry construction containing 1,324 square feet of living area and located in Worth Township, Cook County. Features of the residence include two full bathrooms and a partial-finished basement.

The appellant, through counsel, appeared before the PTAB arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellant also submitted a one-page brief, photographs of the subject and the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the three suggested comparables consist of multi-level, single-family dwellings of masonry or frame and masonry construction located within seven and one-half blocks of the subject. The improvements range in size from 1,661 to 1,813 square feet of living area and range in age from 35 to 40 years. The comparables contain one or two full bathrooms, a partial-finished basement and a two-car garage. Two comparables have air-conditioning. The improvement assessments range from \$7.09 to \$8.38 per square foot of living area.

At hearing, the appellant's attorney argued that the subject has no garage, whereas, the appellant's comparable all have two-car garages. Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 4,341  
IMPR.: \$ 11,465  
TOTAL: \$ 15,806

Subject only to the State multiplier as applicable.

PTAB/rfd6889

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$15,806. The subject's improvement assessment is \$11,465 or \$8.66 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with multi-level, single-family dwellings of frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,116 to 1,410 square feet of living area and range in age from 23 to 30 years. The comparables contain one or one and one-half bathrooms, a partial-finished basement and a two-car garage. Two comparables contain air-conditioning and one comparable has a fireplace. The improvement assessments range from \$9.09 to \$11.62 per square foot of living area.

At hearing, the board's representative stated that the board of review's comparables are similar to the subject in size, design, age, amenities and location and indicated that the board of review would rest on the written evidence submissions. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After hearing the testimony and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The PTAB finds the board of review's comparables one, two and three to be the most similar properties to the subject in the record. These three properties are similar to the subject in improvement size, amenities, age and location and have improvement assessments ranging from \$9.09 to \$10.40 per square foot of living area. The subject's per square foot improvement assessment of \$8.66 falls below the range established by these properties. The PTAB finds the appellant's comparables less similar to the subject in size in that they are significantly larger in size of living area as compared to the subject. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the most similar properties contained in the record. As a result of this analysis, the PTAB finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
