

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Daniel Aaronson  
DOCKET NO.: 04-20943.001-R-1  
PARCEL NO.: 11-07-111-018-0000

The parties of record before the Property Tax Appeal Board are Daniel Aaronson, the appellant, by attorney Joanne P. Elliott of Elliott & Associates in Des Plaines, and the Cook County Board of Review.

The subject property consists of a 126-year-old, two-story, single-family dwelling of frame construction containing 1,264 square feet of living area and located in Evanston Township, Cook County. Features of the home include one full bathroom, a full-unfinished basement, a fireplace and a two-car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on five properties suggested as comparable to the subject. The appellant also submitted a two-page brief, photographs of the subject and the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the five suggested comparables consist of two-story, single-family dwellings of frame or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 1,288 to 1,494 square feet of living area and range in age from 76 to 126 years. The comparables contain one or one and one-half bathrooms and a finished or unfinished basement. Four comparables contain a one-car or two-car detached garage and two comparables have a fireplace. The improvement assessments range from \$21.03 to \$23.46 per square foot of living area. Based on

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 9,360  
IMPR.: \$ 29,653  
TOTAL: \$ 39,013

Subject only to the State multiplier as applicable.

the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$61,593. The subject's improvement assessment is \$52,233 or \$41.32 per square foot of living area. The board's evidence disclosed that the subject sold in June 2002 for a price of \$696,000.

Also, the board submitted a list of properties that sold which included the subject's June 2002 sale, however, descriptions of the other sale properties were not provided. In addition, the board of review provided a copy of the subject's property characteristic printout.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

The appellant submitted five properties suggested as comparable to the subject to corroborate his equity argument. The Property Tax Appeal Board finds these properties similar to the subject in size, location, age and amenities and have improvement assessments ranging from \$21.03 to \$23.46 per square foot of living area. The subject's per square foot improvement assessment of \$41.32 falls above the range established by these properties. After considering adjustments and the differences in the appellant's suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported by similar properties contained in the record. In support of its assessment, the board of review only pointed to the subject's 2002 sale but did not address the appellant's equity contention.

Therefore, based on a review of the assessment comparables contained in the record, the Property Tax Appeal Board finds the appellant has supported the contention of unequal treatment in the assessment process and a reduction in the assessment of the subject property is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
